

BIG COLLIERY CHANGES HANDS

Hudson Coal Company Disposes of Leggett Creek Mines

Scranton, Pa., July 15.—A transaction involving four million dollars, one of the largest deals in the anthracite fields in recent years, was the purchase by an out-of-town syndicate of the Leggett Creek colliery, for years one of the best holdings of the Hudson Coal Company here.

The members of the syndicate purchasing the colliery are all men of years' experience as coal operators and are: J. P. Burton, of Cleveland, Ohio, president of the Treverton Colliery Company; Swan Hartwell, president of the H. N. Hartwell Sons Company, (a) of the leading firms in the coal business in New England, and Phillip Salostall, financier and banker of Boston and New York.

PROHIBITION CONTROLS HOUSE

Amendments Providing For Sale of 2-3-4 Beer Are Voted Down

Washington, July 15.—Prohibition forces took full control in the House yesterday, refused to permit a vote on a straight-out motion to repeal the war-time act, defeated overwhelmingly an amendment providing for the sale of two and three-quarters per cent beer and stood solidly against all attacks on the general enforcement measure.

containing more than two and three-quarters per cent alcohol, instead of more than one-half of one per cent as written in the bill. Representative Dyer, Republican, Missouri, author of the amendment, did not ask for this definition in the constitutional prohibition amendment, but simply in the war-time law.

Typist in Dual Role Arrested on Theft Charge

Chicago, July 15.—Miss Anna M. Rutten, pretty and 22 years old, led the dual existence of typist by day and scion of wealth by night, according to the police and the broker who employed her until yesterday. She has been arrested in connection with the disappearance of \$10,000 in Liberty bonds.

ORDINANCE SECRETS TO BE BARRED TO PUBLIC

Army Men Will Explain Details of Weapons That Helped to Defeat Germany During National Rifle Matches

Caldwell, N. J., July 15.—Four officers and 38 men of the United States army familiar with the construction and operation of machine guns, rifles and long range field pieces have been detailed here. It was announced today, to explain to the American public for the first time since the beginning of the war, what have been regarded heretofore as highly important ordinance secrets.

Selinsgrove Doctor Held by Turks on Way Home

HE DIDN'T UNDERSTAND "In Havana we all take a siesta about this hour."

Selinsgrove, Pa., July 15.—Cyril H. Haas, for the last nine years head of the Christian Hospital in Tarsus, Turkey, and for the last four years held a virtual prisoner of war, is on his way back to his native Selinsgrove. Mrs. Howard D. Schnure received a postcard this week from the heroic Selinsgrover, wherein he stated he expected to set sail in a fortnight.

Absolutely No Pain

My latest improved appliances, including an oxygenated air apparatus, makes extracting and all dental work positively painless and is perfectly harmless (Age no objection).

GOOD LOOKING, GOOD VALUE TIRES

For Sale by Dealers

Another interesting feature of the matches will be the air meet in which not less than six army and navy flyers, and including, possibly, Lieutenant Ormer Lockyear, the mid-air acrobat, will participate by authority of Major General Charles T. Menoher, director of the United States air service. Two two-seated and four one-seated airplanes will be provided by the Federal authorities.

SAYS ALLIES MUST GET MORE MONEY

U. S. Action Necessary to Protect Billions Already Lent

Washington, July 15.—The United States must lend the Allied Nations approximately \$2,000,000,000 additional to recover the \$9,000,000,000 loaned those nations during the war, in the opinion of Charles H. Boynton, New York financier, who said today it was learned that he has submitted to the treasury officials a memorandum in an effort to convince them of the necessity of a definite governmental policy as to foreign investments to promote such investments among the people of the United States "to prevent a financial calamity resulting from existing conditions in Europe."

We can solve your heating problem

Richardson & Boynton Co., the leading heating manufacturers of America, offer you the services of 82 years of experience.

It means economy to act now to replace that old heating plant whose years of service are done. We can give you valuable advice as to the system which will be the most economical to install,—steam, hot water, vapor vacuum pressure or hot air. If you are building, we can tell you to a cent the system bearing the correct proportion of cost to the entire cost of your building.

Be Just to Your Buildings

Cover a good building with a good roofing,—a roofing that is weather-proof, leak-proof, fire-proof,—that will look well, wear well, is easy to lay and easy to keep in repair.

Cover your buildings with

RU-BER-OID ROOFING

The name Ru-ber-oid stands for more than a ready-roofing—it stands for roofing service. The materials that go to make it have been carefully selected and tested by men who have had more than twenty-five years experience in the manufacture of prepared roofings. It has been, and still is, their ambition to make Ru-ber-oid the best roofing that can be bought at any price.

It is true that Ru-ber-oid costs a little more than other ready-roofings but thousands of men who have used it will tell you that it is worth more; that it will last longer, and that, actually—figuring its cost per years' service—it is the most economical roofing investment that you could make.

Forget about the first cost and think of service! Your buildings are worthy of the best care that you can give them—so roof them with Ru-ber-oid.

The dealer whose name is printed below will tell you more about the sturdy qualities of Ru-ber-oid.

Normal Production Of Pig Iron Is Near

Cincinnati, July 15. — While pig iron buying has lost a little of the momentum gained during the month of June, considerable interest is still displayed in purchases for last half delivery. The continued general inquiry for foundry iron bears out previous reports that consumption is increasing. A number of buyers who thought they had covered their requirements over the remainder of this year are taking on further tonnage, and requests made for rush shipments and anticipated deliveries confirm the prediction of a general resumption of trade on a more nearly normal basis.

The last week has seen several additional furnaces withdraw from the market for this year's shipment it being their feeling that tonnage booked will require normal production of iron for shipment during the fourth quarter is in demand, with a few inquiries out for 1920 shipment. It is not likely that much tonnage will be booked at this time for shipment next year, as such delivery does not appeal to producers at present prices.

Police Asked to Help Find Missouri Girl

The local police have been asked to assist in finding Miss Eglantine Jersey, of St. Louis, Mo., who either left or was taken from a Pennsylvania railroad passenger train en route from St. Louis to Washington last Tuesday. She is described as 17 years of age with dark hair and a dark complexion. Railroad detectives are on the search for the girl.

Beef—It's Cheap Food

Compared with prewar price levels, beef is one of the cheapest of essential foods today. Other foods have advanced to much higher points—and remained there. A survey conducted by the Health Commissioner of Chicago showed the following price increases for the current year over 1913-14:

Flour	210%
Sugar	115%
Milk	87%
Round Steak	86%
Eggs	80%
Sirloin Steak	61%

Beef is one of the best values in the food line and there is plenty of it.

The need for conservation for military purposes is past.
