

BERLIN IGNORED IN RHINE AFFAIRS

Interallied Commission Will Not Deal With the Ger- man Government

Coblenz, July 12 (delayed).—The interallied Rhineland commission, which is preparing to take over the command of the occupied areas from the Allied armies as soon as the peace treaty is ratified by three of the principal Allied powers, it was said to-day, is determined not to deal with the government at Berlin, but with the existing German administrative organization on the left bank of the Rhine.

A move by Berlin to obtain a voice in the government of the Rhineland under the commission met with a rebuff this week. Herr von Stark was appointed governor of the occupied areas by Berlin and sent to Coblenz to attempt to persuade the commission to deal with the heads of the Rhineland organizations through him. The interallied commissioners in the treaty for dealing with a representative of the government at Berlin.

Herr von Stark spent four days in Coblenz this week and called upon the Belgian, French, British and American commissioners, but, it is said, received no encouragement for his plans. When he departed for Berlin to-day, Herr von Stark said he was not sure whether he would return to Coblenz.

The interallied Rhineland commission to-day issued a notice to civilians in the occupied areas that trade would be re-established immediately between the interior of Germany and the occupied areas under certain restrictions. This action was taken after official notification had been received from Paris that the blockade had been lifted.

Under the orders of the commission the importation of arms into the Rhineland is forbidden. Shipments of coal and coke would continue

under present regulations. The commission announced that it would prohibit, except by special permit, the removal of 20,000 tons of dyes, dyestuffs and chemical products in the Rhineland. These goods will be guarded by Allied soldiers.

Can't Reduce Value of Mortgage
According to the terms of the peace treaty the Allies have sixty days after three of the principal Allied powers have ratified the treaty to decide on the disposition of the dyes. The conditions provide that 50 per cent of the 20,000 tons may be purchased by the Allies if they desire it. Ninety per cent of all the dyes made in Germany were manufactured on the left bank of the Rhine before the war.

Republicans Discussing Covenant Reservations in Series of Conferences

Washington, July 15.—The program of the Republican majority of the Senate Foreign Relations Committee to advocate reservations to the covenant of the League of Nations, as practically agreed upon at their conference was taken up yesterday in scattered conferences of Republican Senators. Nearly all of the majority Senators participated in the various confabs, which occurred at the homes of different leaders in the League fight.

As an outcome of the conferences, it was stated by Republican leaders that there was no longer any doubt on their part as to the ability of the League opposition to put through reservations as a part of the resolution of ratification of the Peace Treaty. Senator Moses, a member of the Foreign Relations Committee, said that every one of the forty-nine Republican Senators favored reservations to the covenant. Besides these, at least two Democrats—Reed and Gore—would vote with the opposition, making fifty-one votes counted upon as assured for reservations. Opposition leaders also put Senators Myers of Montana, Walsh of Massachusetts, King of Utah, Underwood of Alabama, Ashurst of Arizona, and Phelan of California in the doubtful class with strong inclinations to vote for some of the reservations now being talked of by majority leaders.

At the conference reservations on these points were advocated by the Republicans:
1. As to the Monroe Doctrine.
2. On Article X, guaranteeing territorial integrity to members of the League of Nations.
3. As to purely domestic questions, such as the tariff, immigration, and equality.
4. On the right of the United States to withdraw from the League of Nations under two years' notice, the United States Government, instead of the League, to determine if its obligations under the League covenant have been fulfilled.
