Store Closed Thursday Afternoons During Summer

What Do You Lack?

These are days when it pays men and women to look carefully through their supplies of personal wearables and home-furnishings, to discover what is likely to be needed in the near future.

Prices on almost all kinds of goods are still going UP—some up only a little—some up and up and UP, with no top price apparently in sight.

During the month of July, we have dropped many prices away down below the old low prices, and so they are now doubly below the new higher prices that will be paid later on for goods no better.

One way to learn what you need is to look through your supplies at home; the other way—THE BEST WAY—is to come to the store tomorrow and let the goods suggest their desirability or necessity to you, just when you can see how low the present prices are.

SPECIAL

BOWMAN'S—Main Floor.

Cooks Without Fire Saves Fuel, Time, Labor And Food

Come pretty near saying cooks without heat, but that would be going just a little too far. But without fire is literally true in that no fire is required after your radiators are heated. After they are heated you may go motoring for hours or shopping and come back and find a meal perfectly cooked with all the flavor deliciously preserved. It cooks the flavor into the food instead of out of it.

The Domestic Science Fireless Cook stove is the most scientific fireless cooker on the market. Made by the largest manufacturers of fireless cookers in the world and constructed of the best materials.

Sold on Bowman Club Plan. One Dollar sends one to your home.

Fifth Floor For Fine Furniture.

A Bargain In White

Skirting

50c Per Yard

White checked Gabardine; 36 inches wide, mostly in one pattern. The very thing for vacation wear. A fabric that will make an attractive garment and its low cost will justify the freedom of wear that a higher priced article would not permit; 50c per yard.
