How Old Are You By Your Hair?

You may be thirty in years, but if you are bald-headed, gray, or your hair is dry, brittle, scraggly and ugly-looking, people will surely take you to be many years older.

When your hair becomes faded, dry, streaked and scraggly, when it falls out badly and new hair cannot grow, the roots should be immediately vitalized and properly nourished. To do this quickly, safely and at little expense, there is nothing so effective as Parisian sage (liquid form) which you can get at Kennedy's Drug Store and all good drug and toilet counters.

Its guaranteed to abolish dandruff—stop scalp itch and falling hair and promote a new growth of money refunded. It's in great demand by discriminating women because it makes the hair so soft, lustrous, easy to arrange attractively and appear heavier than it really is.

A message with Parisian sage is a real delight—easy to use, not sticky or greasy, and delicately perfumed—no antiseptic liquid free from dangerous ingredients and guaranteed not to color the hair or scalp. If you want good looking hair and plenty of it, Parisian sage means you secure beautiful hair for years to come.
