

NO HALF ROADS IN THIS STATE

Commissioner Sadler Says They Are Not a Good Investment Now

Highway Commissioner Lewis S. Sadler to-day issued a statement that the proposition advanced to his department in numerous letters of constructing new highways in half sections so that half of the road can be used while the other half is being built is neither practicable or economical because of the general narrowness of Pennsylvania thoroughfares.

In a statement issued he says: "Roads so constructed would not give satisfaction, inasmuch as it would not be possible to avoid variable conditions in the construction of the two sides.

"Contractors will bid much higher on this type of construction, because they would have to cover the length of the road twice, instead of once. Materials can only be stored in one-half the road.

"Especially where the road is dusty there is a marked disadvantage in using a half-wide section, because the materials become dirty, not only from the dust, but from dirt thrown up by traffic.

"The congested right-of-way—that is, the small width from fence line to fence line, as well as width necessary for heavy grading on most Pennsylvania roads, mitigate against half-way construction. Contractors would be handicapped through traffic tying up grading operations. And Pennsylvania roads carry more bridges which would have to be rebuilt than do most other states.

"Most of the construction on the State's primary system cannot be classed as resurfacing. In discussing the half-width idea, the only economical and reasonable way, so far as the State is concerned—and certainly the contractor, is to eliminate traffic from the section being reconstructed. Both time and money are saved. Any other course would be poor housekeeping."

While the unequal amount of construction now under way in Pennsylvania has resulted in the unusual number of detours, the State Highway Department each week issues a bulletin showing where these detours are.

Road Turned Over—An hour after State Highway Commissioner Lewis S. Sadler received the deed for twenty miles of the old Carlisle-Hanover turnpike stretch in York and Adams counties yesterday afternoon, the Good Roads Association of Hanover together with residents of York, Franklin and Adams counties having raised the money to pay off the bills and acquire the road. The road was one of those laid out by Washington as a post road and was originally thirty miles long. Cumberland freed its ten miles some time ago and there were two miles in York and eighteen in Adams freed by the gift which represented extinguishing of \$125,000 debt. Senators George Marlow, of York, and C. W. Beales, of Gettysburg; Speaker Robert S. Spangler and S. S. Lewis, of York; Milton Burgher, of Chambersburg; Robert C. Miller, of Gettysburg; Burgess H. G. Newcomes and prominent men of Hanover were among those here on the matter to-day.

Receivers Answer—Receivers of the Pittsburgh Railways Company have filed an answer with the State Public Service Commission to the complaint of the city of Pittsburgh against the increase in street car fares announced to take effect August 1. It is insisted by the receivers—A. A. Fagan, W. D. George and S. L. Toney—that the city is inconsistent in its attitude, as it makes certain heavy financial demands on the company, while it seeks to defeat the plan which will produce sufficient revenue to meet the obligations.

Board Named Again—Governor Sprout has reappointed Chairman Harry A. Mackey, Philadelphia, and Commissioners John A. Scott, Indiana, and Paul W. Houck, Shenandoah as members of the State Workmen's Compensation Board under the act just approved for the reorganization of the bureau. They will be commissioned until the end of the next session of the Senate.

New Examiners—Commissioner of Banking Fisher has appointed two new bank examiners, Captain Ralph W. Knowles, Philadelphia, and James A. Taylor, Indiana, both of whom have been long connected with banking institutions. Captain Knowles, who was commander of the trench mortar battery formed out of the Sheridan and Governor's Troops in the reorganization of the 25th Division at Camp Hancock, served in France. He has been connected with the West End Trust Company, of Philadelphia. Mr. Taylor has been connected with the Farmers Bank of Indiana.

Americanization Thrusts Joss and Lesser Idols From Famous Mott Street Temple

New York, July 23.—The transforming of Chinatown that has been in progress for a decade has finally thrust its Americanizing influences into the Chinese temple in Mott street, with the result that the Joss and the lesser idols have been relegated to a dusty closet.

For years the Joss was one of Chinatown's attractions, occupying a prominent position in the council hall of the temple.

A Christian clergyman, the Rev. Lee To, head of the Chinese Association, which now holds sway in the temple, is responsible for the removal of the idols, which is significant of the present-day attitude of the Chinese toward the old traditions. The Chinese Association is regarded as the most powerful organization of Chinese in America. It has replaced the dramatic, though fatal method of the old Tong with a system of mutual help founded on the most advanced American ideas of philanthropy.

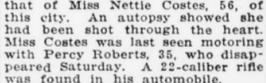

Two Injured Autoists Lie All Night in Rain

Hazleton, Pa., July 23.—Hayden Weyenmeyer and David Herring, of this city, were badly injured during the night when their automobile struck a heap of rocks on the road at Weston and turned turtle. Herring suffered two fractured ribs and Weyenmeyer suffered dislocation of the spine. The accident occurred at a lonely spot and the victims were unable to summon help, spending the night in the rain near their overturned car. A farmer found them and brought them home.

Identify Woman Found Shot Through Heart

Rochester N. Y., July 23.—The body of a woman, found under a compost heap in an old barn near here was identified yesterday as that of Miss Nettie Costes, 56, of this city. An autopsy showed she had been shot through the heart. Miss Costes was last seen motoring with Percy Roberts, 35, who disappeared Saturday. A 22-caliber rifle was found in his automobile.
