

ATHLETICS TO GET HARD FIGHT

Large Attendance Expected if Jupiter Pluvius Listens to Weatherman's Forecast

With the sun shining forth at intervals this morning and with promise of fair weather for the afternoon, forecasts were expressed at noon today for a large attendance at the baseball game between Connie Mack's Philadelphia Athletics and the Klein Chocolate Company aggregation this afternoon.

Three wagons with a number of men were working on the H. A. C. grounds in Island Park yesterday and the grounds were announced to be in high-class shape for the afternoon's melee.

Connie Mack was scheduled to arrive in this city at noon with his men, and was scheduled to put his regular line-up against Manager "Jack" Brackenridge's fast-moving Elizabethtown delegation.

The chocolate team, with its array of former major and minor league talent, will give the American League a hard fight, according to Manager "Jack."

ERIE MAN GETS CROSS

Washington, July 23.—The War Department announced today the award of the Distinguished Service Cross to Private Thomas L. Guyer, Erie, Pa.

Do Away With Indigestion

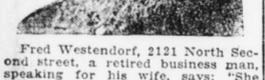

How to Purify a Sour, Distressed Stomach in a Few Minutes

Let us talk plain English; let us call a spade a spade. Your four food ferments and your stomach isn't strong enough to digest the food you put into it, so the food sours and forms poisonous gases and when it does leave your stomach it has not furnished proper nourishment to the body, and has left the stomach in a filthy condition.

Take Mi-o-na stomach tablets if you suffer from your filthy stomach to a healthy, clean, purified one. If Mi-o-na fails to relieve your indigestion, rid of your dizziness, biliousness and sick headache, your dealer will cheerfully refund your money.

If you want to make your stomach so strong that it will digest a hearty meal without distress, and you want to be without that droopy, all tired feeling, take Mi-o-na. It should give you prompt relief. For sale by H. C. Kennedy and all leading druggists.

HIS WIFE'S NERVES ARE STEADIER NOW

Fred Westendorf, 2121 North Second street, a retired business man, speaking for his wife, says: "She suffered from nervousness and dizziness and all run down. She had several operations, her head being cut in three places and was in the hospital four weeks. She didn't seem to gain strength. She heard about Tanlac and began taking it. She is convinced that Tanlac is a good tonic. She is now about well."

The genuine J. I. Gore Co. Tanlac is sold here by Kramer and Steiner's and other leading druggists.

WHY RUN-DOWN PALE EXHAUSTED WOMEN SHOULD TAKE IRON

"There can be no beautiful, healthy, rosy-cheeked, steady nerves without iron. When the iron goes from the blood of women, the roses go from their cheeks—their nerves and their lives depart. I always insist that my patients take organic iron—Nuxated Iron—not metallic iron which often corrodes the stomach and does more harm than good. Nuxated Iron is easily assimilated, does not blacken nor injure the teeth nor upset the stomach. It will increase the strength and endurance of weak, nervous, irritable, careworn, haggard women in two weeks' time in many cases. I have used it in my own practice with most surprising results."—Ferdinand King, M.D., well known New York Physician and author. (Satisfaction guaranteed or money refunded—On sale at all good druggists.)

CHAO CHU WU HERE TO TALK ON SHANTUNG

Chinese Peace Delegate Will See Senators and Officials

By Associated Press.
Washington, July 23.—Dr. Chao Chu Wu, one of the Chinese delegates to the Peace Conference, has arrived in Washington to discuss the Shantung settlement with senators and officials. Reiterating that China planned to submit the Shantung question to the League of Nations immediately upon its formation, Dr. Wu paid a tribute to the American mission to the Peace Conference, declaring that the Chinese delegation deeply appreciated the work the mission had done on behalf of China.

"China," said Dr. Wu, "will not sign the peace treaty because she wants to be free to take whatever action may be necessary in the future. The League of Nations undoubtedly will offer the best avenue to approach the situation."

Japan promises to restore political rights to Chinese economic rights," he said. "In China that means nothing. Look at South Manchuria. There the Japanese are in complete control economically, politically and every other way."

Paris, July 23.—Informal conversations on possible compromises which would solve the Shantung problem are taking place. The opinion prevails in conference circles that some arrangement probably will be reached by which the settlement of the Shantung question between Japan and the other great powers that Japan shall return Shantung to China will be made public.

While this agreement was not formally prepared and signed by the great powers, it is known that notes were made but that the Chinese were vague in their attitude against the permanent loss of Shantung.

7,000 of Reserve Are Helping Bring Troops Home

By Associated Press.
Washington, July 23.—Demobilization of the Navy is progressing satisfactorily, according to a Navy Department announcement today. A total of 118,554 enlisted men have been discharged since the armistice was signed; of these, 94,206 were enlisted in the regular service and 22,248 were members of the reserve force who were released to inactive duty, subject to call. More than 22,500 reserve officers have been returned to civil life and 7,124 still are on duty.

There still are 7,000 enlisted men of the reserve force on duty, most of them aboard transports. They will be released as readily as recruits can be obtained to take their places. It is expected all of the reserve officers and men remaining in the service will be released within two months.

Recruiting now is more encouraging, the rate of new enlistments being about 5,000 monthly. Both the Atlantic and Pacific fleets are still short-handed, however. Naval officers expect the arrival of the Pacific fleet on the west coast to result in stimulating recruiting throughout the West.

TEAM OFF FOR EUROPE

New York, July 23.—Members of the Bethlehem Steel football club, American soccer champions, were among the passengers to-day on the steamship Stockholm for a three months' tour in Sweden, Finland, Norway, Denmark and Brazil.

She Was Close To Death From Rheumatic Fever

Blood Circulation Was So Poor That Her Hands Were Numb

"Quite some years ago I was taken down with rheumatic fever and for several days I was at the point of death," said Margaret A. Boyd, of 249 Putnam street, Scranton, Pa. "Some time after this I had St. Vitus dance, so between the two my health was left in bad condition."

"Every Spring I had a siege of rheumatism. I got such pains that it was impossible for me to do my housework and the blood circulation in my hands was so poor and they got such a numb feeling that I could not pick anything up. Besides all this misery, I have been troubled with chronic constipation and an inactive liver."

"With all these afflictions, anyone can imagine the condition I was in when I first read of Natonex, the famous Nature remedy to cleanse, purify and build up the system in Nature's way. I had only taken Natonex a few days when I seemed to notice a difference. Then my improvement continued right along."

"My bowels became regular, my nerves got better and I began to sleep restfully. My complexion cleared as my system was purified and my rheumatic pains got less day by day. The blood circulation in my hands was more noticeable than anything else, because I could not even pick up a needle."

"If my relief through Natonex will be any benefit to others, I will gladly authorize you to publish it. I have so wonderfully improved by taking Natonex that I want others to learn of this wonderful Nature remedy."

It costs only a little to test Natonex, in which a chemist has combined the twelve most famous of Nature's remedies to cleanse and invigorate the system, so that Nature can create better digestion, purer blood, restful sleep, real nerve vigor and a healthy system. No matter how discouraged you are, you can take this safe, sensible Nature remedy without a single doubt.

Natonex is specially recommended in Harrisburg by the Gorgas Drug Co., 16 North Third street, and is sold by leading druggists everywhere.—adv.

RAMSEY BILL GETS TART VETO

Governor Says It Would Be the Limit of Futility

Governor William C. Sprout today announced his veto of the Ramsey bill designed to legalize 2.75 per cent liquors and the measure creating the State Salary Board in messages reviewing the purposes of the legislation and declaring in the case of the Ramsey bill that it would be futile legislation and that the Salary Board bill was of doubtful constitutionality.

In his veto of the Ramsey bill the Governor says: "This bill purports to be an act to enforce the eighteenth amendments to the constitution of the United States by prohibiting the manufacture, sale and transportation within the Commonwealth of intoxicating liquors for beverage purposes and defining the term 'intoxicating liquors for beverage purposes.' The Legislature in this bill has endeavored to define the meaning of the words 'intoxicating liquors for beverage purposes' by providing that they mean all vinous, spirituous, malt or brewed liquors or any admixture thereof for beverage purposes when they contain more than 2 3/4 per cent of alcohol by weight at a temperature of sixty degrees above zero, Fahrenheit. Whether such an alcoholic content as that thus defined is or is not intoxicating is a question of fact as to which there is no difference of opinion. This bill further provides in substance that although a beverage with such an alcoholic content may in fact be intoxicating it shall be considered nonintoxicating. Such a provision might open a very wide door to evasions of the law. As the legislation now rapidly passing by the Federal Congress fixes an alcoholic content very much less than that prescribed by this bill and as the Federal law when passed will be supreme, it would be the limit of futility for this Commonwealth to put upon its statute books an act which would be a dead letter as soon as the Federal Government shall have spoken upon the subject."

Salary Board Veto
In vetoing the State Salary Board bill the Governor says the purpose is commendable and seeks to remedy a manifest inequality that exists in the compensation of certain State officers to the Board and remarks that such powers can not be delegated.

The Governor then says: "This bill in effect clothes the said Salary Board with the power to amend, alter or change a law fixing the salary, for example, of the deputy head of department, a position created by statute, filed by appointment of the Governor, by and with the advice and consent of the Senate, and with a salary attached thereto expressly prescribed thereby. If the Legislature can delegate its power to some board thus to change a law specifically fixing the salary of a public officer, it is not tantamount to giving it the power to abolish the office by withholding all salary therefrom or to change the grade of the office or to some board to change or alter the laws which have established all public places? Aside from that constitutional doubt, I am not convinced that the system here proposed to be set up is sound in policy, or whether it would not entail a burden upon the board charged with its administration and invite abuses wholly disproportionate to any advantage it might secure. A departure from our hitherto accepted one settled policy of fixing the compensation of public officers and employees so radical as this should only be made where the way is free from all question as to its constitutionality and because it does not require any change of method altogether desirable and its adoption an unmistakable and inevitable result of the eminent domain is one of the great powers of the State and should be controlled through the legislative and judicial branches of the Government and not through an administrative body says Governor Sprout in vetoing the bill giving water power companies furnishing electricity the right of eminent domain, subject to the Public Service Commission. The Governor also says that the bill does not exempt homes, churches or burial grounds.

Mayer Goes.
The Governor also vetoed the deputy mayor bill for second class cities on the ground that it is an innovation which he does not think should be established and that if any person is needed he should be chosen by Council and not delegated by the Mayor.

Other vetoes were:
Increasing fees of clerks of quarter sessions courts on the ground that the present fees provide enough compensation.

Requiring Medical Bureau to grant licenses to persons passing an examination provided by law, which the Governor says is objectionable because it does not require examinations in this State or give the Bureau authority to decide whether standards of State holding the examination equal those of Pennsylvania.

Existing laws, he holds, cover the case.

Increasing pay of assistant assessors in first class townships from \$5 to \$7, the Governor says he is not satisfied that they should have more than similar officers in other divisions.

Regulating fees of several officers of the State, a similar bill having been already vetoed.

The Governor also vetoed the bill requiring the Fish Commissioner within year to certify whether an adequate fishway has been built in the McCall's Ferry dam and the Attorney General to proceed with quo warranto action if it has not been constructed. The Governor says it would make "a mischievous precedent," and an invasion of rights of the executive part of the Government.

He says there are now remedies at law by which the Attorney General can be petitioned to employ and the case tried out "in orderly way" in the courts.

Truck Rolls Over Into Muck of Old Canal Bed

When a truck of H. A. Hartman, Steelton, ran wild after its steering gear had broken, it swerved into another truck owned by the Bowling Construction Company and forced it over the bank of the Clark's Ferry narrows.

The truck rolled over twice, landing on its side in the muck and water in the bed of the old canal. Three men who went over with the truck escaped with slight injuries, but were covered with a heavy coating of slime. Both trucks are engaged in State road work.

OPponents OF CLEMENCEAU SEE HIS FALL

Jubilant Over the Confidence Vote of Deputies, 272 to 181

By Associated Press.
Paris, July 23.—The Chamber of Deputies gave a vote of confidence in the cabinet of M. Clemenceau yesterday afternoon by a vote of 272 against 181.

M. Clemenceau's opponents were jubilant over the vote in the chamber, saying that it spelled the doom of the cabinet as at present constituted.

Premier Clemenceau, on leaving the chamber said: "This is a mere skirmish. The real battle is coming."

The premier was cheered as he departed, many officers surrounding him and shouting "Vive Clemenceau!" and "Long live the father of victory!"

Annoyed during the debate by repeated interruptions from the Socialists, M. Clemenceau himself ascended the tribune. The light of battle was gleaming in the "Tiger's" eyes as he said:

"You wanted me to make war. I have made war.

"You wished me to make peace. It is harder to make peace than it is to make war. It is a question of confidence! I have obtained all that France could desire and many things that France could not hope for."

Welsh Miners Will Not Join Yorkshire Strikers

By Associated Press.
London, Tuesday, July 23.—The most hopeful feature of the coal strike situation to-night was the declaration of the Welsh miners at a conference at Cardiff not to join the Yorkshire movement. There was no great accession of strength to the strike movement to-day. The men on strike total about 275,000, Yorkshire, Devonshire, Nottingham and Monmouth being the counties mainly affected.

Andrew Bonar Law, government spokesman, told a questioner in the House of Commons to-day that apparently the miners' unrest was a protest against the increase in the price of coal, the dearness of living, military interference in Russia and conscription.

Says Corporations Will Do More For Men Than Unions

By Associated Press.
New York, July 23.—Elbert H. Gary, chairman of the United States Steel Corporation, has declared in a statement he did not believe that the movement now under way to unionize the employes of the steel company and to bring about a general strike would meet success.

"The employes," he said, "have received, and will continue to receive, better treatment and better conditions of employment from the steel corporation under its principles and policies pertaining to labor than they could expect through the efforts of labor unions."

Lightning Kills Mother; Babe in Arms Unhurt

Johnsonburg, Pa., July 23.—During a severe electrical storm which passed over this city, Mrs. Henry Brawnd, a prominent business woman of this city, was killed by lightning which struck her home. A two-month-old baby, which was clasped in the arms of the mother, was unharmed by the bolt. Three other members of the family, who were seated a short distance from the mother, escaped injury. The house was badly damaged.

ROCKEFELLER MAKES OFFER

By Associated Press.
New York, July 23.—Announcement of an offer by John D. Rockefeller to contribute \$100,000 to the Chautauqua Institution, which conducts a lecture series at Chautauqua, N. Y., provided \$200,000 is raised from other sources, was made here to-day by Arthur E. Bestor, president of the institution. Mr. Rockefeller will contribute 20 per cent of all sums raised from other sources, his maximum contribution to be not more than \$100,000.

LIVERPOOL TIED UP

By Associated Press.
Liverpool, July 23.—The strike among the dockers, which broke out here early this week, has resulted in bringing about chaos in the arrangements for handling more than 200 ships at this port, their sailings being canceled or indefinitely postponed. There was no appearance of prospects to-day of any speedy settlement.

START SAARE NEGOTIATIONS

By Associated Press.
Paris, July 23.—Negotiations between German and French delegations for the transfer of the coal mines of the Saare Valley began to-day at Sarrebruck. The delegates are mostly mining experts.

How to Heal Sore, Bleeding Gums Tighten Loose Teeth

BEFORE THEY FALL OUT. DENTIST'S HOME PRESCRIPTION WORKS LIKE MAGIC

If your teeth are loosening or if your gums are receding and are sore, tender or inflamed, if they bleed when you brush your teeth, are spongy, flabby or colorless or if they discharge pus or develop gum boils, it is a warning of dangerous Pyorrhea or Riggs disease of the gums and prompt and careful treatment is necessary if you wish to save your teeth from falling out.

A prominent New York State dentist has discovered a new prescription — Epithol — for promptly correcting these troubles and it surely seems to work like magic. A few days' use and teeth tighten, the gums grow sound and healthy and the bleeding, poisonous pus discharge soon stops. An ounce jar of Epithol will last for weeks and costs little at H. C. Kennedy's, G. B. Gorgas' or any good drug store and all these leading druggists will refund the full purchase price if in any case it fails to bring relief. No one really wants false teeth if you have any of the above symptoms, you should by all means give this treatment a trial.

DAUPHIN-PERRY CIRCUIT INTACT

Duncannon Reconsiders Its Withdrawal From Circuit at Meeting Last Night

The Dauphin-Perry League circuit, as it has been constituted thus far this season, will remain intact for the remainder of 1919. Duncannon, whose withdrawal had been announced earlier in the week, will continue to be represented.

Decision to this effect was reached last night at a special meeting of the league delegates, held in the storerooms of Shenk & Tittle, in Market street.

Duncannon fans and officials were represented at last evening's meeting in large numbers. While they expressed keen displeasure at some decisions in the recent Marysville game over which this week's difficulties arose, their better sporting spirit was in evidence and the Duncannon representatives expressed their intention of continuing as a member of the league. A meeting of Duncannon fans and officials had been held on Monday night and at that time action to remain in the league had been taken.

Duncannon representatives at last evening's meeting expressed the feeling that the Marysville game had been lost solely as a result of alleged unfair decisions of the umpire. Sentiment of the delegates of the other clubs and other league officials was expressed to the effect the league, unless it could be shown that the umpire's decisions were made through a misinterpretation of the rules. This was shown clearly not to be the case.

Duncannon fans feel that circumstances surrounding the alleged unfair treatment have been somewhat exaggerated. It is said that Burgess Cook and a Duncannon stable were on the field throughout the contest and Burgess Cook is even reported to have escorted the umpire from the field.

Some missiles were hurled at the umpire, the fans admitted, but it was said that these were few and were hurled by small boys. No assault of any kind was attempted on the official, interested persons say.

Arrest Saloonkeepers For Selling Near Beer

By Associated Press.
Philadelphia, July 23.—Federal authorities have begun prosecutions against saloonkeepers in Philadelphia for selling beer containing more than one-half of one per cent alcohol in violation of the wartime prohibition act. Eleven saloonmen owning ten bars and a number of bartenders were arrested. The proprietors were held in \$1,000 bail for court and the bartenders in \$500.

The arrests were made by agents representing the United States attorney for the Eastern district of Pennsylvania. This district comprises besides Philadelphia the counties of Berks, Bucks, Chester, Delaware, Lancaster, Lehigh, Montgomery, Northumberland and Schuylkill.

Now that we have started, said District Attorney Kane, we will keep it up until we have arrested every offender against wartime prohibition. Mr. Kane would not say when action will be taken against saloonkeepers in his jurisdiction outside of Philadelphia.

Gang of Moonshiners Turn Tables on Prohibition Officer in Virginia Hills

Huntington, W. Va., July 23. Seized by alleged moonshiners, brought before a Greenbrier county justice of the peace and found guilty on a charge of bootlegging was the experience of H. R. Ratliff, a State prohibition officer, who returned late yesterday from a tour into the hills. Ratliff was sentenced to serve 60 days in jail by the justice, but was rescued by Harry Fitzgerald, a brother officer, from an alleged moonshiner who was escorting the convicted official to the bas-

tile. Ratliff and Fitzgerald went to Greenbrier county to investigate a report that many illicit stills were in operation there. The officers located two stills and Ratliff went to the village of Auto, W. Va., to telephone the department at Charleston for additional men to make the raid. While in Auto, Ratliff was arrested by alleged moonshiners at the point of revolvers, brought before the justice, charged with bootlegging and convicted.

Following the rescue of Ratliff by Fitzgerald, the officers destroyed two stills and more than 6,000 gallons of mash and swore out 19 warrants for Greenbrier county residents who are charged with manufacturing moonshine.
