Great Parade of Returned Soldiers Witnessed by Thousands

MEMORIAL IS IMPRESSIVE

Exhibition of Warfare Methods Given by Men Who Saw Service

Special to Harrisburg Telegraph. Lykens, July 26.—The big Lykens-Wiconisco celebration rapidly is drawing to a close and those who were busiest with arrangements say that it has been an unqualified success, from the military memorial to the parade in honor of the returned veterans.

This morning the parade was held and the soldiers who came from all parts of the valley to participate say that it could have been more efficiently conducted. Starting at 10 o'clock, the parade followed a route which took it through Lykens and Wiconisco, the streets of which were lined with shouting and cheering relatives and friends, who have long waited to show their returning soldiers how glad they are to welcome them home.

This afternoon saw several band concerts in the borough park and the exercises in honor of the soldiers, when addresses of welcome and appreciation were delivered. This evening the big dance at the park will practically close the celebration, although there will be more concerts and a union church service of all the churches in the vicinity to-morrow evening in the park.

The military memorial yesterday proved to be one of the most impressive parts of the program. After the singing of a few hymns and the reading of a psalm, the Rev. Paul D. Whitman, senior chaplain of the Seventy-ninth Division, made the address of welcome. Chaplain Whitman was enthusiastic in praise of our soldiers in France and told many incidents of the splendid way in which they conducted themselves. He referred to many amusing incidents in their life with their arrival and training on French soil, which could only be appreciated by the men who were overseas. The veterans of the Civil War sat in

Marriages Between German Girls and U. S. Soldiers May Not Be Permitted

Coblenz, Thursday, July 24.—Reports of marriages between American soldiers and German girls have been received at headquarters from various parts of the occupied area during the last few days, but as yet no charges have been made against any of them, as it is believed most of the marriages were due to misunderstanding regarding the anti-fraternization regulations.

A week before the treaty was signed, several of the chaplains through a misunderstanding informed the soldiers that marriages were prohibited by a special order from headquarters calling the attention to officers and men to the fact that until the United States ratified the treaty Germany and America technically were at war and the regulation prohibiting fraternization was still in force.

At headquarters it is said that even after the United States ratified the treaty marriages with German girls will be prohibited by an army order.

WRITES TO SEN. LODGE

"Mysterious" Missive Believed to Deal With Request For Personal Documents

By Associated Press. Washington, July 26.—President Wilson has written a letter to Senator Lodge, chairman of the Foreign Relations Committee, dealing with a resolution recently adopted by the Senate.

In making the announcement to-day, White House officials said the letter was "not a refusal of anything." The resolution referred to in the announcement was supposed to be that of the committee asking for all documents used by the American delegates at the Peace Conference.

Not For Publication President Wilson's advisers said to-day that after studying the letters written by former President Taft to Chairman Hays, of the Republican National Committee, and several senators regarding reservations to the Peace Treaty, the President had concluded that Mr. Taft did not write for publication. They said the President believed Mr. Taft was making an honest effort to bring about a settlement of the League controversy and that he had no idea that what he wrote would be published at this time.

Some of the President's advisers let it be known to-day they deprecated the action of some senators who have visited the White House in placing their own interpretations in statements for publication upon what the President had said to them on the Peace Treaty and the League covenant.

May Make Address It was indicated to-day that the President was considering the advisability of making some sort of a statement regarding his views on proposed reservations to the Treaty. It was said such a statement might
