Observers were horrified and thought the airman in trouble, but later it developed the flyer had made a beautiful landing in the Mumma field directly in front of the house. Hundreds of people swarmed to the place from all directions. Many came in cars and farmers and families in the locality as far as a mile away walked to the scene. The plane remained about two hours. Judging now by the War facts— The American Smoke is a cigarette

NOT only because they proved such a necessity with our fighting men on land and sea, but also perhaps because they are the mildest form of smoking, cigarettes have at last come into their own. Today among young men as well as old, plain men and prominent citizens, the cigarette is more popular than cigar or pipe and as highly respected as either. One cigarette in particular seems, as the following facts show, to have won a position as America's first choice in smoking, East and West, North and South—nation-wide.

—and one cigarette in particular:

- At Washington**
A fact: Each day the Nation's capitol sees a new throng of big professional and business men from every state in the Union. But each day, at the Capitol Building and at Washington's leading hotels, including the Shoreham and the Willard, these changing hundreds of men buy more Fatimas than any other cigarette.
- In the Army**
A fact: At the big army training camps during the war were thousands of soldiers from each State and Territory. At every one of these camps, Fatima was a leader. In fact, at many of them Fatima was steadily the one largest seller. And over 740 million Fatimas were sent to our troops abroad.
- In the Navy**
A fact: The officers in our Navy come, of course, from every part of America. But, regardless of where they come from, Fatima suits most of them best. Of all the cigarettes sold in Officers' Mess throughout the whole Navy, over 80% are Fatimas.
- With our NC Ocean Fliers**
A fact: The 15 American men who flew on the NC.1, NC.3 and NC.4 hailed perhaps from 15 different states. But of the 15 men, twelve chose Fatimas to keep them company on that long, lonely, daring flight.

FATIMA A Sensible Cigarette 20 for 23 cents

"Just enough Turkish"
This, in three words, is the reason. This is why, all over America, Fatimas are the choice of shrewd, knowing smokers. Fatimas are not a straight Turkish cigarette. Most men find straight Turkish too heavy. The famous Fatima Turkish blend contains just enough Turkish—just enough to taste right and just enough to leave a man feeling right, even when he smokes more than usual. This also is why Fatimas today are out-selling all of the fancy, expensive, straight Turkish cigarettes—seen at places such as Palm Beach and French Lick, and at America's smartest hotels and clubs.
