Nearly 5,000 Officers and 138 "War Brides" Under Quarantine

New York, July 28.—The first case of smallpox discovered on a returning troop ship held up the transport Mobile from Brest on her arrival

here yesterday, resulting in the quarantining of the nearly 5,000 officers and men on their arrival at Camp Mills and the segregation of 138 "war brides" under care of the Red Cross after they were landed at Hoboken.

A Filipino mess boy was found to have developed a mild case of the disease after the vessel left France, and he immediately was quarantined with his three Filipino companions in the ship's hospital.

The Mobile brought the first of the Fourth Division to return home, including the 93 officers and 3,151 men of the 47th Infantry, and 21 colonels and lieutenant colonels and 25 enlisted men of the Third Army corps headquarters detachment.

The transport Santa Teresa from St. Nazaire on arrival yesterday reported the suicide by drowning of Private James McPherson, of Erie, Pa., Company A, 137th Engineers.

Y. M. C. A. PERFORMED HUGE WORK DURING WAR, FIGURES SHOW

New York, July 28.—First detailed accounts of the receipts and expenditures of the Young Men's Christian Association, made public here by the organization's National War Work Council finance committee, show that \$125,282,859 was received by it between April 26, 1917 and March 31, 1919.

According to the figures, which appear over the signatures of George W. Perkins, chairman of the committee, Cleveland H. Dodge, treasurer of the War Work Council, and H. W. Wilmot, comptroller, slightly more than two percent of the total funds contributed by the American public were expended for religious purposes in the United States and overseas, while approximately 80 per cent was devoted to the purchase, transportation and distribution of canteen supplies and to entertainments, education and athletic sports.

owing to the depreciation in values of French and English currency and conversion of the overseas figures at market rates, the result is a book loss of \$2,482,089.

The report, the committee makes clear, is not final because the war work campaign in this country, which reached its maximum in March of this year, is being continued in the United States and foreign countries.

Some idea of the magnitude of the work accomplished by the organization is shown by the statement that more than 27,000 concerts, vaudeville performances and other entertainments were staged by the "Y" in American cantonnments to an aggregate amount of \$3,500,000 at a cost of \$1,166,763.

Overseas, the statement says, work of even "a vaster scope" was accomplished. The 1,900 or more huts and tents built or leased for the use of the A. E. F., cost \$4,801,271, were equipped at a cost of \$2,450,421 and operated and maintained at a further expense of \$1,014,337.

Writing materials and newspapers for the overseas men, including 4,000,000 sheets of letter paper, half as many envelopes and 16,000,000 postcards, cost \$2,296,88.

The cost of the "Y's" overseas religious program was \$467,584, or approximately, two-fifths of one per cent of the entire operating funds.

In the United States, it is shown, the organization expended \$2,105,816 upon its religious program in the six military departments, which included the holding of meetings and Bible classes, the distribution of literature, plants, literature and library work cost \$991,932 and the A. E. F. athletics cost \$1,957,301.

Motor Truck Service Transportation of comforts and luxuries to the canteens and soldiers in the field, it is shown, represented a considerable item, the installation of a motor truck service cost \$2,702,034 and its operating expense \$1,170,761.

OLD FLOGGING CUSTOM EXISTS

Students in the British Colleges Retain Old Practice

London, July 28.—The old custom of flogging students is still in vogue in British colleges, whose students are as old as the average American college man.

At Cheltenham college the students flogged Barnwell, the former tender of the college baths because he had deserted the baths, for higher wages in an aircraft factory.

was satisfactory to all concerned, including the students. Because of the number to undergo castigation, lots were drawn so that one out of ten of the student body should get the whip.

MacMillan's Next Arctic Trip to Be in Boat 60 Feet Long

Professor Donald MacMillan, of Bowdoin College, noted as an Arctic explorer, is planning to start early in the summer of 1921 upon his third trip to the northern regions, according to a report from Portland, Maine.

The trip will be financed by the Bowdoin alumni and the National Geographical Society, Bowdoin Museum will be enriched by mineral and animal specimens collected, and photographs and data on topographical conditions will go to the Geographic Society.

MacMillan's party will have a special type of boat, costing about \$50,000. Every requirement suggested by previous Arctic trips will be met in the new boat, which will be only sixty feet long.
