Claims Dandruff Will Cause Baldness

If you have dandruff you must get rid of it quick—it's positively dangerous and will surely ruin your hair fy you don't.

Dandruffy heads mean faded, brittle, gray, scraggly hair that finally dies and falls out—new hair will not grow—then you are bald and nothing can help you.

The only sure way to abolish dandruff for good is to destroy the germ that causes it. To do this quickly, surely and safely, and at little expense, there is nothing so effective as Parisian sage, which you can get from Kennedy's Drug Store and good druggists everywhere. It is guaranteed to banish dandruff, stop itching scalp and falling hair, and promote a new growth, or the cost, small as it is, will be refunded.

Parisian sage is a scientific preparation that supplies all hair needs—an antiseptic liquid neither sticky or greasy, easy to apply, and delicately perfumed.

If you want beautiful soft, thick, lustrous hair, and lots of it by all means use Parisian sage. Don't delay—begin to-night—a little attention now insures abundant hair for years to come.

Washington, July 29. — "There will be no general revision of the tariff at this session," said Senator Boies Penrose, chairman of the Committee on Finance who returned to Washington yesterday after an absence of several weeks.
"I adhere to the view that I expressed at the beginning of this session," Penrose said. "This is not time to write a scientific and consistent tariff law, when conditions are abnormal and business has not resumed its usual course.
"The businessmen of this country generally are unanimous in that view. They agree with President Wilson on the subject. Until normal conditions have been restored and commerce has attained a fair level it will be impossible to frame a tariff law that will be to the interest of the United States.
