

CALLS GOMPERS CAPITALIST TOOL

Berger Says He Prefers I. W. to Labor Federation

Washington, July 29.—Victor Berger, testifying before the special committee investigating his right to a seat in the House, said he preferred the Industrial Workers of the World to the American Federation of Labor, because, he added, "Samuel Gompers for some time past has been the tool of capitalists."

Overheard in Passing

"Yes, my dear—and it's just too interesting! You know I'd forgotten all about it."

"So had I. I'm so glad you reminded me of it. And only the other day my husband was remarking on how much my clothes cost nowadays."

"Well, I heard one of Miss Sachs girls say to another: 'I almost dread it. There'll be such a crowd. I do hope that the week of August 4th won't be hot!'"

SHIP OF LOOSE PLANKS WILL BE LAUNCHED SOON

Prince Rupert, B. C., July 29.—A ship unique in maritime history is soon to be launched on this coast for a trans-Atlantic voyage by way of the Panama Canal. It will be built solidly of 2,000,000 feet of British Columbia lumber and will sail for England under its own power.

Strike of Marines Is Finally Settled

New York, July 29.—The strike which for about three weeks has tied up shipping along the Atlantic and Gulf seaboard, was finally settled last night when an agreement on wages was reached with the marine engineers. William S. Brown, national president of the Engineers' Union, immediately sent out orders to move ships without delay.

Six Destroyers Go Ashore in Storm

Newport, R. I., July 29.—Six destroyers dragged anchors and went ashore in a tempest in Narragansett bay yesterday afternoon. All were refloated after the storm passed and naval authorities said little damage had been caused.

Dock Workers at Liverpool End Strike

Liverpool, July 29.—The strike of dock workers has been settled. Work was resumed today.

BIRDS DO NOT MAKE BIRD'S-EYE MAPLE

What makes the bird's-eye maple? That is a question which you have asked yourself when you looked at a beautiful piece of furniture made of

placed in position.—When sufficient timber has thus been put together, in regular shipbuilding style, to insure buoyancy, the embryonic vessel will be launched.

Donkey engines on board will hoist the lumber into place. The planks will be so adjusted as to form rounded bows and stern for a ship of solid lumber which will ride low in the water. The vessel will be fitted with five masts with great fore-and-aft schooner sails and auxiliary engines which will enable it to travel at fair speed in calm weather.

Storm Wrecks Three Places Buildings and Tents Blown Flat During Heavy Winds

Mincola, July 29.—Three bombing planes, including the Martin machine in which Captain Roy N. Francis planned to leave next Friday on a trans-continental flight, were wrecked by a terrific electrical storm which, sweeping over Long Island yesterday afternoon, struck a steel hangar at Hazlehurst field and hurled fragments of steel for a distance of half a mile.

Middletown Committee Plans Welcome Home Fete

Clarence Hickernell has returned home from a visit to relatives at Pittsburgh.

Miners Will Carry Alleged Election Fraud to Courts

Scranton, Pa., July 29.—Defeated candidates for offices in District No. 1 United Mine Workers upon being refused an investigation of their charges that the election was crooked, declared that they would carry the question of legality to the courts.

Lightning Hits Hangar, Demobilizing Plane

Washington, July 29.—Lightning struck a hangar at Hazlehurst field yesterday afternoon housing the Martin bombing plane in which Captain Roy N. Francis was prepared to make a one stop flight across the United States.

AMERICAN FLAGS STUCK IN LOAVES OF BREAD MADE OF AMERICAN FLOUR

New York, July 29.—Howard Heinz of Pittsburgh, formerly food administrator for Pennsylvania, and more recently the representative of the American Relief Administration in Southern Europe and Asia Minor, who returned from Europe on the Aquitania Sunday, yesterday gave the first detailed account of conditions in Rumania, Poland, Serbia, Czechoslovakia and all of the countries in which Mr. Hoover has been operating.

Would Feel Lost Without Their Diamonds

Los Angeles, Calif.—Many men and women who wear diamond rings regard them not only as part of their apparel but as part of themselves.

Diamonds Worn Aplenty in U. S.

Chicago.—Diamonds never have been so generally worn in any nation or in any period of history as they are in the United States today.

Knockout Blow

The knockout blow is scientifically explained as follows: When the lower jaw is struck on its point, especially with an uppercut, the driven portion of the ear inside is driven forcibly upward into the genoid cavity of the skull above and behind which is situated the delicate labyrinth of the inner ear.

Abyssinian Duke, Head of Mission, to Thank U. S. For Helping to Beat the Hun

Abysinnia sent a mission to the United States to thank the Nation for its part in defeating the central powers. This photograph shows His Excellency Dedjazmach Nado, Duke of the royal family and head of the mission, in his striking Abyssinian costume.

Millions Lost in Forest Fires Points to Need of National Forest Police

Washington, July 29.—Estimated loss by forest fires in 1918 is placed at twenty-eight million five hundred thousand dollars and with fires sweeping sections of three States the American Forestry Association points to the need of a national forest police.

Easily carried in your pocket "Everlastingly Good." 5c Everywhere Triangle Peppermints are made from the finest XXXX pulverized sugar and pure super oil of mint.

Simple Operations Fitted Together

The business of Swift & Company is the fitting together of many simple operations.

No one thing in a packing business is particularly difficult for men trained to do it; but no one thing is enough.

Thousands of other operations, properly performed, are necessary for the completed processes. And some one must fit together all these thousands of simple operations.

The success with which a packing business performs its function of supplying the best possible meat products to the consumer with the greatest possible benefit to both him and the producer depends upon the energy, brains, experience, and faithful effort of the men trained in the business.

Swift & Company turns the producer's live stock into meat for the consumer at a profit of only a fraction of a cent a pound, because it fits these operations together with the least waste, overlapping, and friction.

Do you believe government direction could do it better?

Let us send you a "Swift Dollar". It will interest you. Address Swift and Company Union Stock Yards, Chicago, Ill.
