

CHILD WELFARE CENTER TO OPEN AT MILK STATION

Doctors and Nurses to Give Free Advice to Mothers

Dr. C. R. Phillips, county medical advisor, announced last night that the first Child Welfare Center will be opened tomorrow at 1213 North Cameron street. This is the first of three centers that are to be established. The Paxton School Building, Cameron and Paxton streets, and the Foose School Building, South Thirteenth street, are the other two centers to be opened next week. The Paxton center will be opened Monday and Thursday and the Foose center Wednesday and Saturday.

There will be a nurse and doctor in charge from 10 to 12 o'clock in the morning each Tuesday and Friday.

The present milk distribution centers are located at these points, and the two Welfare Centers will work with them, the former taking care of children up to one year and the latter between the ages of one and six.

September will find the three centers established in permanent quarters, as their present locations are only for the month of August, which always finds much sickness among the children, on account of the intense heat. After their permanent location, the centers will be open all year round.

WAGE BILL WILL BE PROPOSED TO MEET THE H. C. L.

Measure Being Prepared For Action in the British Parliament

By Associated Press.

London, July 31.—To provide adequate living wages and to set a limit of 48 hours a week's work is declared to be the purpose of two important bills which are being prepared for action in Parliament.

These two measures are understood to be the result of an agreement between representatives of employers, of trade unions and of the Minister of Labor, acting as a National Industrial Conference. They are described as "government bills on maximum working hours and minimum time rates."

The Wage Bill as drawn up provides for an inquiry by a commission to decide what shall be the minimum wages for adults and for young persons, the commission to consider the cost of living. It is also provided that the minimum wage shall be adequate to meet the increased living cost.

The bill intended to make 48 hours constitute a week's work does not apply to domestic servants, seamen on ocean-going vessels, minor employees in positions of trust and confidence. An inquiry is to be held regarding the working conditions of domestic servants and seamen to determine whether they can be brought within the scope of the bill.

It is stated that if the bills are approved and accepted by the workers affected by them, the trade unions will be asked to aid the government in organizing a National Industrial Council to be representative equally of employers and trade unionists.

Bungalow Apron Over Bathing Suit Not Enough

Midland Beach, N. Y., July 31.—And now the bungalow apron has been put on the censor's list of "Thou shalt nots."

Midland Beach has long since said goodbye to the one-piece bathing suit and the decolette designs that were wont to display the lines of the female form divine to the best advantage, but until a few days ago it has been the habit of women dwellers in the bungalow colony to wear bathing suits all day around, the house and to cover them with a bungalow apron, designed on Mother Hubbard lines, whenever they desired to go shopping.

But alas for democracy in dress! Every woman coming to the beach now is handed a little card reading: "Persons wearing bungalow aprons or bungalow costumes are not welcome at this resort."

Mexico Tries to "Plant" Detectives in Oil Fields in Step Toward Confiscation

By Associated Press.

Washington, July 31.—Advises from Mexico City to-day report the sending of a number of secret service men by Chief Crozio, formerly chief of police of Mexico City, into the oil fields at Tampico, in an endeavor to secure evidence against foreign oil companies operating in that region. Attention of the State Department has been called to the action, which is believed to be another move on the part of the Mexican government to bring about the confiscation of the foreign owned oil properties.

According to the advices received here, the men were sent to Tampico to seek employment by the oil companies, but as these companies now have been warned through a "leak" in Mexico City, it is believed they will be unable to secure employ-

ment. It was charged the foreign oil companies were aiding revolutionists, but according to State Department officials the rebel Pelaez is the only person, aside from Carranza, authorities who are seeking any aid of the companies.

Pelaez it was explained, is being paid a salary for protection of the oil fields south of Tampico. The salary is apportioned among the various foreign companies and has been approved by the State Department here, and by the British, Dutch and French foreign offices.
