NOT HIS NAME

The train was pulling into the station, and as the passengers crowded to get off, the hotelman walked up and down calling: "King George, sir? King George?" Coming up to an old gentleman from the vountry he said, while stooping for the man's bag, "King George, sir?"

Officials of Chicago's surface and elevated electric lines met yesterday with representatives of the 15,000 striking carmen and Governor Frank O. Announcement was made following the conference that the compromise agreement rejected by the men Monday night when they voted an immediate strike, would be submitted Friday night for a referendum vote. Britten I. Budd, heads of the surface and elevated lines, respectively, and William D. Mahon, international president of the street carmen's union, attended the conference with Governor Lowden.

The proposition offered an eighthout day, time and one-half for overtime, and a maximum of sixty-five cents an hour for surface carmen and sixty-seven cents for elevated men.

Unless some means is found to get the workers back on the cars pending their final decision on the proposition Chicago faces at least two more days of the strike. A referendum, if taken Friday night, and resulted favorably to acceptance of the proposition, probably would be completed in time to start cars Saturday morning.
