

VETERANS CAN GO IN FOR A YEAR

Important Ruling Relative to the National Guard Reorganization is Announced

Rulings which will give the National Guard of Pennsylvania which is to be organized in the next few months the benefit of trained soldiers, many of them of overseas service, without bringing down the men too much have been given to Adjutant General Frank D. Beary by the War Department. Under their terms men who served in the United States army prior to July 11, 1919, may contract for one year enlistment in the National Guard. The State has arranged for the same privilege to be given to men of the Pennsylvania Reserve Militia.

Heretofore, according to General Beary, men were required to contract for six years and often this interfered with enlistment of men with army training because occasionally for a year or so after re-enlistment in the military service men were uncertain where they wanted to locate. The same is now true in a greater degree of men who are just coming out of the army. It is believed that many men who have been in the army, especially the regular divisions and whose term of enlistment is over, will go into the new guard together with men who served in the 28th, 42nd, 78th, 80th and other divisions in which there were many Pennsylvanians. Numerous offers of overseas service have been made, applications for commissions and the bulk of the officers will be men who saw service under actual war conditions in France.

General Beary is planning to complete conferences needed with officials at Washington on preliminary to organization of the Guard this week and to visit Philadelphia and Pittsburgh to size up situations. While in Washington the General will arrange for the equipment for a whole division. What is in sight is not enough for such a number, but by the end of the year it is believed that it will be available as Pennsylvania will have its Guard organized and be calling for equipment.

Progress made thus far indicates that the Keystone State may be first to organize its Guard after the war. New signs for New State highway signs to indicate detours and announced as "stagecoach red" in color with a white arrow will make their appearance on many roads of Pennsylvania in the next week so that people may know which way to go in avoidance of construction work which is under way on more than 400 miles of main highway this month. Heretofore black and white cardboard signs have been used, but they have been ripped to pieces by storms and have proved unsatisfactory in other ways and metal signs that can be seen for considerable distances will be employed. The Department has announced additional detours in effect including some in Franklin, York and Fulton

"IF I COULD BE HELPED SO COULD OTHERS", HE SAID

Rheumatism, Kidney Trouble and Constipation Had Disordered His Whole System

"Rheumatism, kidney trouble and constipation came on after I had the 'flu' last fall," said Frank J. Egory, of Enc., Pa., "and my whole system got into such bad condition that it was hard for me to keep at work. I got nervous and irritable from my suffering and, although I seemed to sleep pretty well, I would wake up all tired out and would feel as if I had been beaten in the night, as if I had pains in my bowels and the condition of my kidneys brought on rheumatism pains in my legs. This was worse during damp weather. I read of the many people who were being relieved and built up by the Nature remedies in Natonex and when I saw that a well-known Scranton man had been cured of trouble just like mine, I thought I had better see if Natonex would not help me.

"My case was so bad that Natonex went a little hard on me at first, so, as the directions say, I stopped taking it for a day, and then I went at it and stuck to it, and I am sure that I did, for I began to make a new man of me.

"The kidney trouble and constipation are all gone and I feel fine when I get up in the morning. After I had taken Natonex I had a spell of damp weather and I had no rheumatism, so I know that Natonex did that, too.

"I know that if I could be helped like I was that many other people could get relief they are looking for and, though I never recommended a medicine, I am glad to have my name used for Natonex. It is sure all that people claim for it."

No matter how discouraged you are, try Natonex if you would feel like young folks feel—like you felt before poisonous waste matter caused your system to become run down and made you a victim of stomach, liver, kidney or bowel trouble. Begin Natonex to-day and know relief to-morrow. Natonex is specially recommended in Harrisburg by the Gorgas Drug Co., 16 North Third street, and sold by leading druggists everywhere.—Adv.

Gompers Pleads For Greater Labor Rights

By Associated Press. Amsterdam, Friday, Aug. 1.—Samuel Gompers, president of the American Federation of Labor and head of the American delegation to the International Trades Union Federation in session here, pleaded for greater rights for labor to-day. His address to the congress followed the report of a committee which said it could not accept the charter given labor in the Peace Treaty as a full expression of the workers' demands. Mr. Gompers declared that he always had worked for improvement of conditions and demanded that labor should not be regarded as an article of commerce. He urged also that a seaman's act be enacted to permit sailors to leave ships when they were safely in harbor. He pleaded for the equality of women and men and the abolition of voluntary services.

Gas Bomb Burns Home; Injures 5 in Los Angeles

Los Angeles, Cal., Aug. 4.—The residence of Oscar Lawler, formerly United States attorney general, and also formerly United States district attorney for southern California, was totally destroyed early yesterday morning by what the police believe was a gas bomb. He and his wife were badly burned. There is little hope for Mrs. Lawler's recovery. Three children also were so badly burned that they may die. Two children of the family were out of the city. The other boy, 5 years old, was saved.

Lawler, as United States district attorney in southern California, had charge of the McNamara prosecution. Use McNeil's Cold Tablets. Adv.

American Films Popular in Mexico

Mexico City, Aug. 4.—American moving films are gaining in popularity here. In fifteen months ago European pictures were favored by the public which acquired a taste

for French and Italian productions. Of late, however, American manufacturers have put their products to the fore in the republic and their films are to be found in virtually all picture houses, in many of them displacing altogether the European films. Evidence that the United States manufacturers intend to expand

their field, here is the fact that within the past few weeks three of the leading companies have established offices in Mexico City and these in turn have started branches in Vera Cruz, Guadalajara, San Luis Potosi and Monterey. Representatives of these firms assert that in a short time Mexico will receive film releases almost simultaneously with

the United States. This will be an innovation for heretofore managers have been content to receive films many months old and a poor quality.

**REOPENS HIS HOTEL** Waynesboro, Pa., Aug. 4.—The Hotel Washington bar, over which the dust of a month had settled, has

been reopened. Lashley decided, with the 1,600 saloonkeepers in Philadelphia and the thousands elsewhere, that he would take a chance. There was a rush of the thirsty to the Washington Saturday and the "overcomers" from Hagerstown came back in force. Use McNeil's Pain Exterminator.—Ad
