DON'T GROWL AT THE GROCER

He is doing the best he can to supply you with your favorite breakfast cereal. You may not be able to get all the Shredded Wheat Biscuit you want. The war is over and all restrictions are off, but it takes time to get back to normal production. Our four factories are turning out four million Biscuits a day. Very little advance in price. Two of these crisp, brown little loaves of Shredded Wheat with sliced bananas or other fruit make a satisfying meal at a cost of a few cents.

Save Building Expenses

by getting lumber on which little work is required.

The mills certainly have put a smooth finish on the lumber we are selling.

Why, it scarcely needs going over with sandpaper.

A carpenter can do a lot of nailing in a day, but when it comes to planing every piece of wood it retards him a lot and adds considerably to the cost of the building.
