.. at these, and scores of other places

**A fact:** Not only at leading hotels such as these, but at literally hundreds of other prominent places, where one would think only expensive cigarettes would be popular, Fatima, an inexpensive cigarette, is one of the leaders. In fact, our sales records show more and more places, such as fashionable summer and winter resorts, colleges, and leading clubs, at which Fatima is now in first place.

Lyons & Co., Inc.

## "Just enough Turkish"

Hotel statistics such as these are, of course, rather conclusive, since they show the smoking preference of so many men, whether traveling or at home.

These men can afford any cigarette they like. Hence the fact that at so many of these prominent places Fatima now outsells all expensive straight Turkish cigarettes is very significant.

It proves unmistakably that these smokers find something in Fatima's famous "just-enough-Turkish" blend\* that other cigarettes (even the more expensive ones) do not give them. They like Fatima; and more than that, they find that Fatima treats them right—gives them the option of smoking at will, without worry about "when" or "how many."

\* Fatima contains more Turkish than any other Turkish blend.
