Foreign newspapers have published statements from foreigners in Korea alleging that several Korean men who were flogged in pursuance of court sentences were afterward in serious physical condition. Mention was particularly made of five men who had entered a local hospital at Seoul, who had received for three consecutive days thirty blows each. It is declared that the flesh was terribly swollen and discolored and that gangrene had set in.

One of the officials showed The Associated Press correspondent the instrument with which flogging is done under the orders of the court. It consists of two slender pieces of wood tightly bound with hemptwine.
