

ONE AUTO FOR EVERY 20 PEOPLE IN PENNSYLVANIA

Big Gain in Motor Cars Made in Pennsylvania in Five Years

Pennsylvania has one automobile for every twenty persons, figuring the population as approximately 7,000,000, men, women and children. This is the estimate made to-day from figures furnished by the State Highway Department, which shows there are four times as many pneumatic-tired automobiles in the State August 1 as there was August 1, 1914. There are six times as many solid-tired motor vehicles now than five years ago. In 1914 there was but one automobile for every seventy people.

Atlantic City, N. J., Aug. 9.—General H. H. Topakyan, Consul General for Persia, at New York, Prince arrived here yesterday and announced that the State Department at Washington had assured him that it would investigate the action of the National Democratic Club of New York in barring from its rooms Prince Dedajamatch, of Abyssinia. He also said that the State Department had sent a wireless to the Prince who is now on his way home, expressing the regret of the United States Government that His Highness had met with any discourtesy while in this country.

50 New York Cops Own Their Own Machines

New York, Aug. 9.—At least 50 New York policemen own their own automobiles. It was learned to-day when, in response to a request from the police department that members of the force who own cars lend them for emergency use in the case of strike disorders in Brooklyn, half a hundred motor cars were forthcoming. The owners can operate their own cars if desired and in addition to supplying them with oil and gasoline, the department will pay them \$7.50 a day for the hire of the machines.

Capitol Hill Notes

Increases of Rates.—Increases and changes of rates are provided in new tariffs filed with the Public Service Commission to-day by Harley D. Carpenter for electric service in Saegertown, Crawford county. The schedule is increased from 10 to 12 cents per kilowatt, minimum charges provided, that rates omitted are to be relieved of the requirement to provide their own meters. The Pottstown and Phoenixville Railway Company to-day filed an increase of fares from 6 to 7 cents and omission of ticket fare of 10 cents between Stowe and Linfield.

Rider Haggard Urges Kaiser's Trial Dropped

Sir H. Rider Haggard, the noted British novelist, has joined those Britshers who would leave the ex-haiser's punishment in London he said: "Not only will mud be stirred up by the proposed trial, but the resulting mixture will be used to blacken Great Britain's face before the world. Teutonic hatred against us will be accentuated for generations. I think that, if they were asked, many of sound judgment other murderers, violators and all instruments of frightfulness be dealt with under martial law on sea, where they carried out their crimes, but let this royal intimate of Heaven fall into the hands of Heaven, not into those of man."

Says Report of His Death Is Greatly Exaggerated

Wilmington, Del., Aug. 9.—"Well, I see I am again dead," said Alfred McGuire when he returned home from work yesterday and found a fourth telegram from the War Department notifying his relatives that he was dead from wounds received in action. Since McGuire was invalided home and discharged last January, his name has appeared in the casualty list four times, and he personally attended to opening as many telegrams from Washington notifying him that he was dead. McGuire sent a letter to Washington notifying the War Department that the report of his death, like Mark Twain's, was greatly exaggerated.

Scientific Discussions by Garrett P. Serviss

The voice of the cicada, or "seven-year locust," is again heard in the land. Probably it is not anywhere, here or there, almost every year, but when the concert break forth near such a center of human population as New York, this insect is remarkable. Insect is able, literally, to command attention. Moreover, when it fills the air with countless, buzzing hosts it recalls images of the merciless march of destroying armies. Cicada is "mystic W" that bears on its wings, and that has been interpreted by a certain type of mind as an omen of coming war.

The drum consist of a pair of tightly-stretched membranes covering small cavities at the base of the thorax, and these membranes are set into vibration, not by blows from the exterior, but by the rapid action of special muscles attached to the inner surface.

AMERICAN SIX

Satisfaction in the ownership of an automobile depends upon its quality, its appearance and the economy in operation. All three of these qualities are to be found in a large number of cars on the market to-day, but none to such a marked degree as in the American Six. The American Six is the last word in motordom, its looks are instantly appealing, its riding quality is superb, and its economy will satisfy anyone. It is truly a balanced six.
