

CAMP HILL IS PREPARING FOR CHAUTAUQUA

Tent Will Seat 800 and Program Compares With Best on the Larger Circuits

Camp Hill, Aug. 11. — Camp Hill is completing preparations for its first annual Chautauqua to be held August 26 to August 30.

The announcements are to the effect that the Chautauqua is a "League of Neighbors" and that is just what the coming gathering will be, for it is being financed and arranged entirely by the people of Camp Hill, who have undertaken a program that is far and away in advance of what is ordinarily attempted by a town of this size.

The program will include a series of lectures by noted speakers, concerts by the 1919 revue company, the McKinnie Opera Company, comic operas, a concert by the Batting-Hahler Company, and a pageant, "The Wop," presented by the Junior Chautauqua. Among the lecturers will be Peter MacQueen on "Peace and Reconstruction," Dr. A. E. Turner, on "From the Ground Up"; Edward Franklin Reimer, on "Mr. Emerson Walks Back Home"; Miss Edith Granger, Captain Leslie Vickers, on "The Great Crusade and Afterwards," and Dr. Andrew Johnson, on "Eli and Dennis." The program by days will be announced this week.

Redistricting Police. — George F. Lumb, superintendent of State Police held a conference to-day with the captains of the five troops relating to the enforcement of the State automobile laws. Public Service Complaints.—Complaints against the pressure of water supply provided by the Pennsylvania Water company was filed to-day with the Public Service Commission by the Huston Board of Trade. The Butler Railway company filed notices on an increase of fare, operative September 10, from 6 to 7 cents, with tickets 5 1-2 to 6 1-4 cents and school tickets increased from \$2.25 to \$2.50. R. W. Peters and wife, of Erie, complain against the refusal of the Pennsylvania Gas company to make extension to their properties and the company makes reply that due to the diminishing supply of natural gas it would be unwise to make additional extensions. The Mayor's Explanation
The meeting was presided over by Lieutenant Colonel Edward H. Schell. At the opening Mayor Keister asked privileges to make a statement regarding the delay in buying the foodstuffs from Harrisburg. He referred to the complaints because of other cities buying and said in part:

"I want to say to gentlemen of the committee and others that this is the first time we have had any business proposition to consider. Heretofore, we have had only meat prices to bid on. No canned goods were offered us. Prices were given at one time but withdrawn. We were offered tomatoes at one time at \$1.38 per case when they could be bought for \$1.07, but no other vegetables were mentioned. The prices given to me this morning and which will be read to you are the first received on vegetables. We did not buy because the committee found the prices were no attraction. To-day we are in a position to sell to the people of Harrisburg canned goods and bacon at prices below present retail prices."

Plan Second Order
Other members of the committee quoted prices at retail stores and after a general discussion Mayor Keister was authorized to purchase a supply at the above prices. These goods will be purchased on terms made public last week. The city will get the goods without the necessity of putting up funds, and will have thirty days in which to pay for them. If the first order meets with the approval of the people of Harrisburg and all goods are disposed of, a second order will be placed. Goods purchased from the Government must be purchased at an early date, because of the large shipments to go west and south. This morning Lieutenant J. R. Boyle received an order from the War Department to ship to Atlanta, Ga., 8,248 pounds of bacon, and to Philadelphia, 871,000 pounds. With the big orders made public on Saturday and those of to-day the Reserve Depot at New Cumberland will be cleaned out this week. However, Lieutenant Boyle has promised Mayor Keister that Harrisburg will be looked after, and if a second order is probable it can be filled. For this reason the local committee hopes there will be a prompt response when goods are placed on sale Thursday.

New Haven Lines Are Forced to Drop 200 Trains

New York, Aug. 11.—Thousands of commuters who make a round trip daily from their homes in West Chester county and their places of business in New York were confronted to-day with the problem of finding other means of transportation than the trains of the New York, New Haven and Hartford Railroad. Service on the Harlem River division, which was suspended yesterday owing to the strike of the railway shopmen, resulted in the twenty-five trains usually run on the

Harlem River division daily each way being discontinued. To relieve the situation, the majority of the buses which were brought from New Jersey to Brooklyn last week on account of the strike there were being rushed to points along the Harlem River division. In addition private automobiles were pressed into service in the emergency.

The seriousness of the strike situation upon the lines which run into this city was intimated in a statement which showed that two-thirds of the system car men had walked out. Two hundred trains already have been dropped from the timetables temporarily, with prospect of further curtailment if the strike continues.
