Halil Pasha, Former Turk Marine Commander, Flees to Asia Minor

Constantinople, Aug. 13.—Halil Pasha, former Minister of Marine, and uncle to Enver Pasha, former Minister of War, has escaped to Asia Minor with Kritchek Talat, another leader of the committee of Union and Progress. It is believed he will join Mustapha Kamil Pasha in Erzerum.

Halil Pasha was made Minister of the Turkish Navy in 1913, and held office during most of the period of the great war. A Constantinople dispatch announced that he had died but this news was never confirmed. Mustapha Kamil Pasha, former Grand Vizier, Foreign Minister and President of the Council of State, was in command of Turkish troops in the Lake Van region in 1916, and was defeated by the Russians, retreating to Erzerum. He was later arrested, being charged with responsibility for massacres of Greeks in Asia Minor. Early this year his forces at Erzerum were reported to be concentrating for an attack on the Allies.

A Paris dispatch on July 7 stated that Mustapha Kamil Pasha and Essad Pasha might attempt the formation of a separate Turkish government. On August 4 advices from Constantinople reported that the Turkish cabinet had ordered the arrest of Mustapha Kamil Pasha and Reuf Bey, on the charge of conspiring a separate congress and organizing armed bands in the Smyrna and Erzerum districts.

Jellicoe Indicates His Policy While Visiting In Australia

Sydney, Australia, Aug. 13.—Admiral Viscount Jellicoe preached a policy of preparation for war in some of the speeches he has delivered here while visiting Australia to inform the Australian government concerning matters of naval policy.

"When discussions take place on such subjects as the League of Nations or the question of limitation of armaments, I trust it will never be forgotten that the existence of the British Empire depends absolutely upon the safety of its sea communications," said Viscount Jellicoe at Sydney, where he addressed the Navy League. Before the war, he said, Great Britain suffered from a lack of sufficient ships to guard the long lines of communication between London and Australia and, he added, "it is up to the British Empire to see that we are never in want of sufficient policemen afloat in the future."

Speaking of the "deadly risks run in the last five years," the Admiral said, "one can only hope that in the future sufficient provisions will be made both by the mother country and by the overseas dominions to insure the impossibility of defeat of the British navy."
