

POTATO GROWERS MEET TOMORROW

Spraying Demonstration Will Be Held on Jones Farm

A potato growers' field meeting, under the auspices of the Dauphin County Farm Bureau, will be held tomorrow afternoon on the farm of William H. Jones, four miles east

of Harrisburg. At this time a potato spraying demonstration will be held and a field of potatoes will be raised, part of which were left unsprayed and the other treated by spraying. By observing the difference between the sprayed and unsprayed potatoes, it will readily prove the value of a little extra labor and expense in making and applying Bordeaux mixture as a spray material. Prof. E. L. Nixon, extension specialist in plant pathology, will be at the meeting to discuss the various diseases confronting the potato growers of Dauphin county and the means of controlling these diseases. All farmers or growers growing one-

half an acre or more are invited to attend this field meeting.

Nature's Tonic is Best for Constipation!

Physicians will tell you that a tonic made of nature's products is superior for constipation than chemical laxatives that give temporary relief. The habitual use of laxatives is detrimental to the system and professional scientists have turned to natural remedies that produce the desired effect of medicinal laxatives. After many years of careful study and experiment, we have perfected a tonic named VITOLYN. It is a natural tonic of herbs, roots, fruits and seeds which not only relieves constipation but also builds and strengthens the body. We have thousands of gratifying letters from men and women who have tried VITOLYN, thanking us for this wonderful preparation and praising its results. Take VITOLYN and be convinced. VITOLYN is endorsed by physicians and is free from alcohol, iron or narcotics, scientifically prepared. Full directions and formula are on each package. Put up in Tablet form only and sold by Kennedy, Keller, Grogan, Golden Seal Forney and all other drug stores. Also Manufacturers of Stevens Catarrh Compound, a sure preventive of Hay Fever.
