## How Fat Folks May Become Thin

May Become Inin

If you are suddenly becoming stout, or if you have been putting on flesh for years, the cause is generally the same—lack of oxygen carrying power of the blood. This trouble occurs mostly in men and women over thirty, but it may be easily treated and without any of the privations most fat people imagine necessary to reduce their weight. Simply go to your druggist and get a box of Phynola. Take five grains after each meal and at bedtime. Wonderful results should be quickly accomplished by this simple treatment. Be sure however you get the genuine Phynola. It is put up in original sealed packages, is pleasant to take and gives prohipt results. Gorgas, the druggist, stores, 6 N. The new law prohibits any one from fishing outside the county except with hook and line or within this county from another county except by that means.
