

**Sees Profit Ahead
For Wage-Earners**

New York, Aug. 15.—James A. Stillman, president of the National City Bank, yesterday issued a statement on general conditions in this

country, in which he referred to this as a time for temperate speech and not a time for the saying or doing of anything that will increase the confusion and excitement which exist. The statement reads in part: "The war has interrupted industry and made many conditions abnormal. It is responsible for the

high cost of living by causing a great scarcity of all the necessities. It is just what was to be expected after the withdrawal of so many millions of men from production. The remedy is in orderly industry. The whole situation will right itself as production is increased. Food

will go down and clothing will be cheaper. "This country went through a similar situation after our Civil War. At first there was scarcity and high prices, but when industry was fully resumed we had a long period of falling prices. It is true that in many instances wages do not keep

pace with commodities when the latter are rising, but on the other hand wages do not fall as fast as commodities when the latter turn downward. Labor generally loses on the rising scale but gains on the falling scale, and the gains last longer than the losses. I venture the prediction

that the wage-earners will come out of this situation the gainers, because the decline in what they buy will be greater than in wages. It has always been so. All the improvements in industry, by invention and the accumulation of capital, work for the benefit of labor."

**Mexican Miners
Kill British Subject**

Mexico City, Aug. 15.—Theodore Patterson, a British subject was killed recently in the state of Zacatecas. Reports to authorities here assert

that he met his death at the hands of mutinous miners with whom he was attempting to confer. President Carranza has ordered a thorough investigation of the affair. Patterson was superintendent of the Aranzazu mine of the Mazapil Copper Company. Use McNeil's Cold Tablets. — Adv.

"The Live Store"

"Open Saturday Night"
