

1,500 SOVIETS ARE TAKEN IN DRIVE

Captured in Offensive by Russian and British Troops

Archangel (Wednesday), Aug. 12.—The successful offensive of British and Russian troops along the Dvina southeast of Tulgas on August 10 resulted in the capture of 1,500 prisoners, according to reports reaching here. It is believed that no Soviet troops remain north of Katlas. The Allied casualties in the fighting, it is indicated, were light.

The attack was undertaken in order to stiffen the morale of the young Russian troops, as agitators recently had been busy among them. Elaborate plans were worked out and the Bolsheviks were unaware of the impending attack.

The Allied troops, after marching through the forests on both banks of the river and capturing many patrols, took up positions in the rear of the enemy and on his flanks. A hurricane of shellfire from Russian and British batteries was the first the enemy knew of the presence of the Anglo-Russian troops. Gunboats and motor launches armed with machine guns co-operated effectively. After the enemy had been surrounded, the British troops charged with the bayonet and many of the Bolsheviks were killed. Those of the Soviet force who were not killed or captured were dispersed.

Paris, Aug. 15.—The menace of a nation-wide industrial tieup leaped to the fore again last night when the electric and steam engineers throughout France issued an ultimatum to the effect that unless their wage demands were settled to-day they will go on strike.

Engine Hits Trolley; Kills Eight Persons

Parkersburg, W. Va., Aug. 15.—The death list, as a result of a crash between a street car crowded with women and children enroute to a picnic and a railroad engine, two miles north of here yesterday, was increased to eight when five persons succumbed to their injuries in hospitals. More than a score of others were injured, several of whom are expected to die. Six of the dead were young children.

The street car, property of the Monongahela Valley Traction Company, crashed into a Baltimore and Ohio railroad switch engine. About fifty small children from a Reno, Ohio, Sunday school and a number of grown persons were on the car, which was enroute to the Parkersburg city park, for their annual outing. A steam pipe of the locomotive was crushed into the car by the impact, throwing a cloud of steam and hot water on the imprisoned inmates, many of whom were badly scalded.

JURY GIVES FORD SIX-CENT VERDICT

Both Sides, However, Regard Verdict as a Technical Victory

Mt. Clemens, Mich., Aug. 15.—A jury last night awarded Henry Ford six cents damages against the Chicago Tribune for calling him an anarchist.

Orvy Hulett, foreman of the jury, said that they took "nine ballots that I can remember," the first one, according to Leonard Measel, another juror, standing 8 to 4 in favor of awarding Mr. Ford some damages.

"Does the award of six cents about express the feelings of the jury as to the case?" a reporter asked Mr. Hulett.

"It just about does. That expresses our judgment," Attorney Alfred J. Murphy for Mr. Ford said.

"The important issue in this case has been determined favorably to the plaintiff. He has been vindicated. Money damages were entirely subordinate and were not sought by Mr. Ford. He stands not only vindicated, but his attitude as an American citizen has been justified after a trial which raised every issue against him which ingenuity and research could present. His friends are entirely satisfied."

Weymouth Kirkland of counsel for the Tribune, said: "We consider it a victory for the reason that Attorney Alfred Luckin, in closing for Mr. Ford, stated that anything less than substantial damages would be a defeat for his client."

Requests For Coppers Overtax the Mint

Philadelphia, Aug. 15.—Because of the demand for pennies caused by the war taxes, the Philadelphia Mint output is not sufficient to meet requests of the government for the "coppers," according to Adam M. Joyce, superintendent. "The real cause for the shortage," said Mr. Joyce, "lies in the fact that the people who get the war tax money allow it to accumulate to a considerable amount before turning it over to the government. Although we are working twenty-four hours every day, we cannot meet the demands for pennies."
