FIREMEN MAKE KNOWN DEMANDS

Inlude Wage Increases and More Mechanical Devices

Cleveland, Aug. 18.—A 35 to 65 per cent. increase in wages is demanded for 117,000 firemen and hostlers on railroads in the United States and Canada in a wage scale adopted before adjournment by 300 general chairmen of the Brotherhood of Locomotive Firemen and Enginemen in session here since Tuesday.

Another demand to be presented to the Director General of Railroads is that all coal burning locomotives in road service weighing 200,000 pounds and over shall be equipped with mechanical stokers and that two firemen shall be employed on all such locomotives until they are so equipped.

About half of the 80,000 engines in the United States will come under this proposal, only about 5000 of which are equipped with mechanical stokers at present.

Some of the Demands

The more important sections of the report follows:

Rates of pay for firemen and helpers in passenger service $6.50 per day of 100 miles or less, except when Mallet engines are used, then $7.20.

Overtime in passenger service will be computed on the present basis, at a speed of twenty miles an hour.

In freight service on engines weighing less than 200,000 pounds firemen shall be paid $6.50 and on engines weighing over 200,000 pounds $6.80 per day of 100 miles or less, overtime to be computed on basis at a speed of twelve and one-half miles per hour.

Firemen and helpers employed in local or way freight service, mixed train, mine runs and other service shall be paid a minimum of fifty cents cents per 100 miles or less in addition to the through freight rates.

Firemen employed on helper, pusher, transfer work, wreck, construction, snow plow, circus, milk and all other trains in unclassified service shall be paid through freight rates according to class of engines used.

Firemen employed on Mallet engines in all service except yard service, shall be paid $7.20 per day for 100 miles or less.

Firemen and helpers employed in yard service shall be paid $6.50 per day or eight hours or less, except when Mallet engines are used, then $6.80.

A demand for time and one-half for overtime in all classes of service is made which will apply on Sundays or holidays.

Hostlers Included

Inside hostlers shall be paid $6.80 per day and outside hostlers $7.20 per day, and hostlers' helpers $6.50 per day, eight hours or less to constitute a day's work.

A demand is made that all coal burning locomotives or less than 200,000 pounds shall be equipped with mechanical coal passer, grate shakers and automatic fire door openers.

It is estimated that it will cost $200,000,000 equip the locomotives in the United States with the different mechanical devices demanded.

Uniform deadhead rules for pay for firemen when traveling from one terminal to work at another and to be applied to all railroads in this Country and Canada are demanded.

Another working condition demanded is that firemen shall be relieved of removing tools or supplies loading coal, oiling lubricators, etc.

MOUNT JOY TO WELCOME

Mount Joy, Aug. 18.—A welcome home celebration is being planned for returned soldiers and sailors on September 20. The town will raise $2,000 for the event. A monster parade will be held. Governor Sproul has been invited to deliver an address.

What Is Rheumatism? Why Suffer From It?

Sufferers, Should Realize That It Is a Blood Infection and Can Be Permanently Relieved

Rheumatism means that the blood has become saturated with uric acid poison.

It does not require medical advice to know that good health is absolutely dependent upon pure blood. When the muscles and joints become sore and drawn with rheumatism, it is not a wise thing to take a little salve and by rubbing it on the sore spot, expect to get rid of your rheumatics. You must go deeper than that, down deep into the blood where the poison lurks and which is not effected by salves and ointments. It is important that you rid yourself of this terrible disease before it goes too far. S. S. S. is the blood cleanser that has stood the test of time, having been in constant use for more than fifty years. It will do for you what it has done for thousands of others. S. S. S. is guaranteed purely vegetable, it will do the work and not harm the most delicate stomach.

PENNSY HAS NEW CHIEF MECHANIC

Major George J. Richers Succeeds C. C. Keagy, Transferred to Pitcairn

Altoona, Aug. 18.—Major George J. Richers, of this city, a veteran of the World War, has been appointed master mechanic of the Middle division of the Pennsylvania Railroad, to succeed C. O. Keagy, transferred to the same position in the Pitcairn shops.

Major Richers is a native of this city, a graduate of the Altoona High school and was a winner of one of the Thompson scholarships, with which he fitted himself for efficient railroad work. He was assistant master mechanic on the Conemaugh division when he enlisted in the 5th engineers at Pittsburgh, one of the first units of the American forces to cross the Atlantic and land in France. Later the command became known as the 15th engineers.

Soon after the arrival of the regiment in France he was assigned to a place on the staff of General W. W. Atterbury and was made superintendent of one of the important railways under American control. He was discharged recently and came home. The change became effective Saturday.

Mr. Keagy came to Altoona on November 15, 1917, from Philadelphia, where he was general foreman of the West Philadelphia shops. Early in life he spent several years here, learning his trade. During his residence of eighteen months in Altoona he made a host of friends here, who regret to see him leave, and he has their best wishes for a successful career. He left for Pitcairn this morning and, as soon as he is able to secure a home, he will move his family to that place.

Republic of Victory Must Be Founded, Declares Tardieu

Paris, Aug. 18.—France now must found the "republic of victory," Captain Andrew Tardieu, high commissioner for Franco-American war matters, declared in a speech yesterday on the occasion of the transfer of the ashes of Deputy Abel Ferry, who was killed in action during the war. Captain Tardieu said that in order to form that republic, France must take to heart in the time of peace the pessons learned in the war. He laid special emphasis on the economic and financial changes that must take place.

Deputy Ferry's ashes are being transferred to the old home of the Ferry family in the Vosges mountains of Alsace.

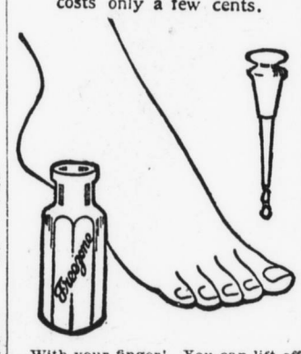
Lift off Corns!

Doesn't hurt a bit and Freezone costs only a few cents.



With your finger! You can lift off any hard corn, soft corn, or corn between the toes, and the hard skin calluses from bottom of feet.

A tiny bottle of "Freezone" costs little at any drug store; apply a few drops upon the corn or callus. Instantly it stops hurting, then shortly you lift that bothersome corn or callus right off, root and all, without one bit of pain or soreness. Truly! No humbug!

Heal your child's sick skin with Resinol

The minor skin troubles to which infants and children are subject—itching patches, bits of chafing, rash or redness—so easily develop into serious, stubborn affections, that every mother should have Resinol Ointment on hand to check them before they get the upper hand. Doctors and nurses recommend Resinol for this with the utmost confidence because of its harmless ingredients and its success in healing eczema and similar serious skin diseases.

Resinol Ointment is sold by all druggists.

Asserts New Discovery Brings Blessed Relief to Rose and Hay Fever Sufferers

Can Make It Yourself at Home at Trifling Expense

In spite of all the doubters and scoffers a man in Kentucky, who changed his annoying and distressing hay fever into less than a mild cold, claims most emphatically that if taken in time hay fever can be conquered or at least made so harmless that it is not even bothersome.

He gave his discovery to scores of other sufferers with the most remarkable result and has recently been prevailed upon to dispense it through pharmacists to all hay fever sufferers who still have faith that nature has provided an effective remedy for this common yet miserable disease.

And, best of all, this remedy costs almost nothing. Get a one-ounce bottle of Mentholized Arcine at any drug store, pour the contents into a pint bottle and fill the pint bottle with water that has been boiled.

Then gargle as directed and twice daily snuff or spray each nostril thoroughly.

That's all there is to it; so simple that a lot of people will say that it can't do the work; but oftentimes simple natural remedies are the best as you will find after using.

If you will make up a pint and use it for a week or ten days you need not be surprised if your unwelcome yearly visitor fails to appear.
