

### NEW SONGS FOR OLD NATIONS

#### Crop of Inspired Anthems to Come With the New Flag in Europe

New York, Aug. 20.—Buried in the scrap heaps of war along with a few tales of imperial standards are some of the National anthems which have stirred the blood of many peoples with patriotism or revolt. Soon the world's productivity is

due to be augmented with a new peace-time crop—a crop of revised and renovated national anthems—not to mention the tunes and stanzas which soon will be flourishing in the fertile field offered by the long list of new nations. Some of these nations never have had a national anthem, except that thrust upon them by the decree of an oppressing government, since the days when chanted fables and litting folk-songs went out of style in favor of this more modern form of crystallized national ideals and ambitions. In Germany, Russia, Austria, Hungary, and Turkey genius should be at work by now evolving some striking expression of a new era to take the place of national anthems which, though they will doubtless remain as songs, certainly have lost any powerful popular appeal they once had. ### Don't Experiment with Catarrh; It Often Leads to Serious Trouble

#### You Will Never Be Cured by Local Treatment With Sprays

Catarrh is a condition of the blood and can not be cured by local application of sprays and douches; this has been proven by the thousands who have vainly resorted to this method of treatment. Catarrh should not be neglected or experimented with. The wrong treatment is valuable time lost, during which the disease is getting a firmer hold upon its victim, and making it more difficult for even the proper treatment to accomplish results. Though Catarrh makes its first appearance in the nostrils, throat and air passages, the disease becomes more and more aggravated

and finally reaches down into the lungs, and everyone recognizes the alarming condition that results when the lungs are affected. Thus catarrh may be the forerunner of that most dreaded and hopeless of all diseases, consumption.

No local treatment affords permanent relief. Experience has taught that S. S. S. is the one remedy which attacks the disease at its source, the blood, and produces satisfactory results in even the worst cases. Catarrh sufferers are urged to give S. S. S. a thorough trial. It is sold by all druggists. You are invited to write to the Medical Department for expert advice as to how to treat your own case. Address Swift-Specific Co., 254 Swift Laboratory, Atlanta, Ga.

#### His 'Super-Venus' Sues For \$100,000 Damages

New York, Aug. 20.—"You are my Grecian baby doll! You are fairer than a thousand Venuses."

These and other endearing terms, Miss Ray Emory, screen actress, alleges was the cause of breaking up the "Ray Emory Productions, Inc.," by its president, Alexander Collis, of Newark, N. J.

Collis caused her arrest on a charge of forging his name to two shares of her stock in a transfer to Dr. J. H. Trainor, of Newark, N. J. She was held for five days in the Jefferson Market Court.

Miss Emory has just brought a damage suit for \$100,000 against Mr. Collis for false arrest and injury to her reputation.

#### TOO MUCH ARITHMETIC

Uncle Mose Lightfoot approached a clerk in the drug store and inquired: "Not any three-cent stamps?"

"No," the clerk replied; "we're all out of the threes."

"Dat's too bad," said Uncle Mose, "cause his letter ought to go out to-night."

"We have plenty of twos."

"But this letter goes out of town."

"And we have plenty of ones."

"But one won't take it."

"Couldnt you put on a two and a one?"

"Huh?"

"Or three ones."

As the old man ambled toward the door he scratched his head and answered: "Maybe I could; maybe I could; but I ain't got no time to be foolin' 'round 'n' addin' up."—Youngstown Telegram.

#### TEST DISABLED MEN FOR JOBS

#### Will Determine If Men Are Physically Fit For Certain Work

Washington, Aug. 20.—Agents of the Federal Board for Vocational Education are authorized to try out disabled soldiers, sailors and marines by practical tests on the job to determine if the disabled man has the physical ability to perform the work required. If the test indicates that the man can qualify physically, arrangements may be made to train the man "on the job" for the work he is to perform, providing this kind of training, in the opinion of the Federal Board, is desirable and feasible and, in the opinion of the co-operating Government departments, is not seriously detrimental to the public service.

It is not expected that there will be a large number of placement training cases, which means simply that the man is trained on the job by a Government employe or official. Most cases after a try out for physical ability will be trained in established institutions offering suitable courses. Probably not a very large number of cases will need to be tried out by a practical test of physical ability. This question can usually be determined through the joint action of the Federal Board and the United States Civil Service Commission.

This is simply and solely a "try out" and "training" proposal of the Federal Board and does not imply that the man being tried out for physical ability, or trained to perform the detailed work of a position in which he is tried out or trained, but in a like position elsewhere, by regular methods, under the amended civil service regulations and Vocational Rehabilitation Act.

### EXPECT GERMANS TO MIGRATE SOON

#### Several Million Will Seek Employment Abroad It Is Believed

Berlin, Aug. 20.—It is expected that several million Germans will attempt, as soon as passes are available, to leave Germany and secure more lucrative employment abroad.

The newly organized Imperial Migration Bureau denies that a German commission in the Argentine is attempting to arrange for the acceptance of 5,000,000 Germans, which is vastly more than the South American country could suddenly assimilate, but says that delegates of the new bureau will shortly go to the Argentine to protect them from being robbed and deceived.

The bureau says the Argentine is friendly to Germans and offers good chances for skilled labor such as carpenters, watchmakers, mechanics and printers.

The Argentine Consulate General says that a commission has been sent to the Argentine which will buy land for the emigrants and institute farms and schools. He declares that the Argentine government is willing to welcome large colonies of Germans but demands they should accept Argentine citizenship so that there will be no danger of creating a state within a state. Precautions are to be taken against Bolsheviki. Emigrants are especially welcome to the territories of Chaco Misiones, Chubut and on government lands. Twenty to two hundred hectares will be given free, on condition that they are not to be sold, and cattle and machinery will be advanced on credit.
