

NEW LAWS CUT AUTO THEFTS

Commissioner Sadler Expects Cars Will Be Much Safer Here as Result

Highway Commissioner Lewis S. Sadler is of the opinion that recently enacted legislation designed to punish automobile thieves, will result in greatly lessening the number of thefts if the authorities diligently enforce these laws. Reports from police authorities throughout the State point to the fact that would-be motor thieves are thinking twice before committing a crime which may send them to the penitentiary for ten years. Not all of the thefts of motor cars which have taken place in Pennsylvania have been reported to the automobile division of the State Highway Department. However, the records filed show that for the last two years at least one machine a day has been stolen in Pennsylvania. The exact number reported to the State Highway Department up until August 20, was 776, of which it was also reported 115 had been recovered either by the owners or by police authorities. The State Highway Department upon receipt of information that a car has been stolen places a special card in the files attached to the original application card giving the manufacturer's number. Should a thief, or a person who secured a car not knowing that it had been stolen, apply to the automobile division for a license for a car bearing this manufacturer's number, the theft would immediately be detected. The automobile division proposes amending this system before the 1920 season begins and special request will be made of all automobile license holders that they notify the division immediately when a car has been stolen. In the future the records of the automobile division will show the number of stolen motor vehicles reported each week and the number that have been recovered.

LONDON PAPERS PRAISE YANKS WITH PERSHING

Honor Men Who Marched in the Peace Day Celebration

London, Aug. 21.—The provisional regiment of American soldiers who followed General Pershing in the Peace Day procession was the first sample of American fighting troops to march in London. Other organizations seen here had been on their way to the battlefields, while these men were returning. "Here were the Americans in steel helmets, marching in companies eight abreast with bayonets fixed," said the Daily Express. "They were as jovial as any when the procession halted, for a time, but while they marched their faces were as serious and as immovable as the gravest of graven images. They made a profound impression on the onlookers. Their marching was Roman in its iron sternness and precision." "A magnificent regiment it was," said the Daily Telegraph. "young men all of them and the quintessence of the alert and lithe. Khaki clad in brown steel helmets they looked most workmanlike." "How magnificently they marched, swinging past in perfect alignment, with a long, easy stride, heads held high and shoulders squared," said the Daily News. They are greeted vociferously with as good cheering as I ever remember having heard in London. "There was a grim, indomitable look about Pershing's men," said the Daily Sketch, "an effect greatly heightened by their shell helmets, and it made all the more wonderful the burst of clear color which followed as their massed banners came by. Old Glories, along with the rest, held American fashion so that the fabric flew freely and no shred of color was lost. The cheering of the crowd turned at the sight to a great 'Ah' of delight. Except for the passing of the massed colors of the Guards with their laureled staves, it was the most picturesque moment of the procession." "Good old Yanks," thus are the Americans affectionately if somewhat familiarly greeted," said the Morning Post in its story of the procession.

Predict Every Playhouse in Chicago Will Close

Chicago, Aug. 21.—Eight downtown theaters remained closed today as a result of the strike of actors, stage hands and musicians. There is little chance of any of the closed houses being reopened for to-night, according to the leaders in the movement against the producing managers association. The managers of the houses affected said the strike lines seemed to be tightening. Predictions were made to-day by leaders of the strike that burlesque, vaudeville and motion picture houses soon would close unless the producing managers recognize the equity association of actors and artists.
