Mexico Certain, View

Washington, D. C., Aug 21. -

Washington, D. C., Aug 21. — A program of singificant silence rein-forced the wetchful waiting policy of the administration. Aside from making public telegrams received from General Dickman at Fort Sam Houston, Texas, reporting the move-ment of the punitive expedition into Mexico, there was no comment forth-coming from either the War or State Departments on the situation. As indicated by officials yesterday the administration is taking the at-titude that a punitive expedition is no variation from routine which can be interpreted as a step toward in-tervention, and that when the ex-pedition returns across the Rio Grande, the incident will become a closed chapter in diplomatic records. This is not the view held in Con-gress, where the impression pre-vailed that intervention is only a question of time with each new inci-dent of the kind which hear scripter

Wilkes-Barre, Pa., Aug. 21. Addressing the tri-district conven-tion of the United Mine Workers here yesterday, William Green, secretary-treasurer of the organization, declared that the chief demands of the miners next April will be for a closed shop, a six-hour work day and an increase in wages of about 60 per cent.

There will be minor demands but the hope of the miners is based on a closed shop. "We want every man to join the union," said Mr. Green, foot of South street. A census of canoe owners 1. Harrisburg yesterday developed the "as the closed shop is the only way fact that there are more than 600 canoe owners in this city and Ir L

"as the closed shop is the only way we will get what we want." He declared that mine workers believe they can produce as much coal in a shorter work day as they are producing in an eight-hour day. John L. Lewis, acting president of the International organization, is presiding at th, convention but he called upon Green to define the aims of the organization. A scale committee has been named and the scale for 1920 will prob-ably be reported to the convention.
