seal of uniformity in the conditions of labor but I question whether it can be done otherwise than by making the standard the lowest, and leveling down to it. Strict uniformity in world labor conditions can be attained only at the expense of the American wage earner. I cannot avoid the conclusion that these articles designed for his proposal and spiritual improvement may make him the equivalent of the continental wage earner.

Before a crowd of about 5,000 persons, playground girls yesterday afternoon presented a folk dance festival, the feature of the annual Romper Day program at Reservoir Park. The crowds witnessing the dances were the largest since the annual outings have been held for the youngsters. About 700 participated in the dances and singing games, trained by Miss Margaret C. Turner, folk dancing instructor, and the young women who have been in charge of the various play plots this summer.

At the top of the group of pictures above the children are shown dancing to "Pop Goes the Weasel"; in the center is another dance on the terrace in which youngsters from each playground participated and on the right to some Emerald playground lassies presenting the "Maypole Dance," the closing feature of the program.

Below on the left are the instructors dancing an "Irish Lilt" and on the right Emerald and Reservoir girls tripping about to another folk dancing air.

Doctor Tells How to Strengthen Eyesight

By the simple use of Bon-Opto, says Dr. Lewis, I have seen eyesight strengthened 50% in a week's time in many instances, and quick relief brought to inflamed, aching, itching, burning, work-strained, watery eyes. Read the doctor's full statement soon to appear in this paper. Bon-Opto is sold and recommended everywhere by Druggists.

PEACHES

Why not use more peaches? They can be had at the West End Electric Co., Green and MacKay, at reasonable prices, fresh every day from the orchard.

ing parts of the program was the eating race for colored boys. Of course, you can well imagine what happened when they turned loose a crowd of youngsters, on a fairly ample food supply. It looked like a cyclone for awhile, but after the first rush was over they settled down to a long hard contest. Food disappeared at the rate of 10 pounds the split second.

But the gifts—everything from silks and such mysterious contraptions to five pounds of butterine were lined up side by side in an imposing array. Mayor Keister, who evidently shares the ideas of a former President on race suicide, gave a barrel of flour to the largest family represented.

The most popular Mummer on the grounds received a Swift ham.

The afternoon saw the baby show in full swing and the mothers hovered all around the place while their fat and fuming youngsters were held up to the general inspecting eye of the judges.

The Mummer chorus will give a vaudeville entertainment in the park theater this evening instead of the regular performance. Mrs. Florence Ackley Ley, of the War Camp Community Service, will direct the following program:

Selection, orchestra; Moorhead chorus, "Blowing Bubbles." Verse by Misses Lillian Goodyear, Grace Staudt, and chorus "Maggie" and "Mr. Mac A. Roney." Misses Sadie Stewart, Ruth Murlatt, Dess Dennis; soprano solo, "Sunshine of Your

Poor Woman Makes Sacrifice

"For years I have doctored for indigestion and severe bloating with gas, all my money had gone for doctors and medicine which did me no good. I had lost all faith in medicines and I had to work hard for the few dollars I earn, was afraid to risk any more money. A year ago my neighbor told me to try Mayer's Wonderful Remedy. I have found it to be the best medicine in the world and am glad I made the sacrifice." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and thus relieves the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. H. C. Kennedy, Clark's two Drug Stores, and druggists everywhere.

Peace Disturber

"I do not look for the early advent of the stupendous upheaval, which must come to the structure of the American government before it can constitutionally assume to such a delegation of power, but I can well imagine how efforts to secure it would seriously disturb our domestic peace." For the labor program points that way.

He also said he could not avoid the conclusion that certain judicial rites visited by the constitution in American courts would be delayed to the tribunals set up by the labor section.

Scores Labor's Methods

Painting a glowing picture of conditions in this country and declaring that organized labor was employing methods which threaten the nation's political and social existence, he declared these were the real matters that should concern legislators.

"Let there be no mistake," he continued, "which the labor section of the treaty neither provides against nor catagorically condemns, but which is directed by international covenant."

FIVE GREAT RACES

Poughkeepsie, N. Y., Aug. 22.—Five races are scheduled for to-day at the grand circuit meeting here. They are the National for two-year-old trotters; the 2:20 pace for half-mile track; the Chamber of Commerce, 2:09 trot, the Nelson House, free for all pacers, and the 2:08 pace. The prizes aggregate \$6,000.

G. A. R. CHIEF ACCEPTS

Delegates representing the Grand Army of the Republic will attend the first annual convention of the American Legion in Minneapolis next November, it was announced yesterday, when a letter from G. E. Adams, Commander in Chief of the G. A. R., accepted an invitation to attend the session was made public.

In the letter the Civil War veteran said the "whole country is looking to the patriotic societies to take the lead in a campaign for a settled American policy," and "the time has come for all Army men and all patriotic societies to strengthen their positions by a federation of their organizations."

Tired, Overworked MOTHERS

Do This

Begin Now to Rebuild Your Strength so the Winter Won't Find You Weak and Sick

Mothers who have had no real rest, or recreation this summer but who have lost strength and vigor, and can hardly navigate because of their weak tired feeling—must not suffer this way long. The results lead to dangerous illness.

The constant drudge of housework, continued care of active playing children and the weakening effects of terrible summer heat places these attentive Mothers on the road to sickness and premature age, unless the vitality is rebuilt, blood renewed and enriched and life made more like living.

Your blood gets thin and weakened under such a strain. It strives to maintain energy in a body weakened by overwork and drudgery and becomes thin and watery in its efforts to rebuild a system too far gone in weakness. How then are you to strengthen your blood to regain your own health and vitality? Simply begin to nourish your blood with a good natural blood food. Many women use a blood food called Novo-San. It is endorsed by physicians and used by them in building up weakened run down people.

Novo-San will add white corpuscles (the policemen of the blood) to the blood to quickly drive out the waste matter that comes from the torn down tissues. Then as your blood gets rid of this waste matter, it will begin almost immediately to add energy to your body and feelings.

Try Novo-San and see how quickly your strength and force picks up from day to day and how the color returns to your cheeks and real life to your feelings.

A twelve-days' treatment will surely tell, and enough for such trial can be obtained from H. C. Kennedy and Geo. A. Gorzar, at small cost. A 50 per cent better feeling will be yours.—Advertisement.
