

SLAVS DESTROY MONUMENT OF DEAD ARCHDUKE

Granite and Bronze Marker Was Erected by the Austrians

Sarajevo, Bosnia, Aug. 23.—The Slavs have torn down the beautiful monument of granite and bronze which the Austrians erected to the memories of Archduke Franz Ferdinand and his wife, Sophia, Duchess of Hohenberg, which stood at a corner of the bridge here where their assassination by Prinzip furnished the spark that set off the world war.

Now that Bosnia—Herzegovina has passed from the rule of Austria and become a part of the Kingdom of Serbs, Croats and Slovenes, the parts of the monument have been stored in the Museum of Sarajevo. When the curator has time they will be assembled for the edification of the students of history and to satisfy the curiosity of sight-seers.

Flames shooting from the chimney of Horace Bair's barber shop at 412 1-2 Verbeke street caused a false fire alarm of fire to be turned in. Burning papers caused the commotion.

PRUSSIANISM IS GERMAN DOOM, DECLARES WRITER

Charges Germany With Having Erred in the Versailles Notes

Berlin, Aug. 23.—"The reason why the whole world rose up against Prussia and Germany and not against England is plain to everyone who had observed the Prussian policy in Poland and the Prussian administration in Alsace," asserted Professor F. W. Forester, of the University of Munich, writing in the Tageblatt.

"England practiced much might to be sure, but it has also given the world much freedom and justice," he added. "She succeeded in reconciling the Boers whereas we were unable in forty years to regain the sympathies of the Alsations who are German to the core. That speaks volumes."

"The isolation of Germany from Hague conferences is irrefutable proof in dominating circles that Germany is possessed of different mentality than the rest of the world."

He charges Germany with having erred in the exchange of the Versailles notes on the question of guilt and states that many overseas accusations might have been combated more effectively if Germany had not again endeavored to defend untenable positions with rank sophistries.

COHAN WOULD BREAK STRIKE BY NEW MOVE

Threatens to Form Association of Independent Actors

New York, Aug. 23.—George M. Cohan, theatrical Broadway's idol and a leading member of the Producing Managers' Protective Association, to-day was on the verge of retiring from play production forever, to devote his life and \$100,000 of his fortune to the upbuilding of a new "independent" actors' organization in an effort to break the actors' strike and keep the stage free from the control of organized labor.

In a letter to Louis Mann, chairman of a meeting of nearly 900 actors and actresses not members of the Actors' Equity Association, Mr. Cohan last night intimated that he would resign from the managers' association and give himself entirely to the interests of a new organization of actors which would work "for the uplift of the actor."

More than 450 actors and actresses signed up for the new association under Mr. Mann's guidance, and immediately a committee was appointed to draft a constitution and bylaws and wait on Mr. Cohan. The committee of the "independent" actors organization selected to wait on Mr. Cohan included Alan Dinehart, David Warfield, Alexander Ledwith, Frederick Carr, William Collier, Janet Beecher, Zella Sears, Leonore Ulrich, Marjorie Wood and Arthur Ashley.

HOUSE OWNERS AND TENANTS IN DEADLOCK

Latter Refuse to Move at the Request of the Landlords

Paris, Aug. 23.—The struggle between Parisian landlords, who seek to double or treble the income from their properties, and tenants, who are unable to find vacant apartments at any reasonable price, has reached a deadlock.

House owners refuse to extend leases or to advertise for rent apartments that have been vacated. Tenants, unable to find new quarters, refuse to move at the behest of the landlords, while the courts have ceased to entertain applications for writs of expulsion, there not being enough process servers to handle those already issued.

Fifty thousand notices to vacate were served on tenants for the end of the second quarter of this year. Such notices were received by all the tenants of some apartment houses, showing how generally landlords have sought to increase rents.

The action of the landlords has provoked the passage by the Chamber of Deputies of a bill extending for two years all verbal leases made since the beginning of the war. Leases made prior to the war already were protected by decrees and legislation.

SEVENTH ARREST MADE IN CRASH

Paying Teller and Assistant Cashier Taken Into Custody

Philadelphia, Aug. 23.—Elwood H. Strang, former paying teller of the North Penn Bank, whose marrying, diamond-flashing, hectic career has furnished most of the "spice" in the tale of financial uglery which wrecked the bank, was taken into custody by the New York police yesterday afternoon. This makes the seventh arrest since the bank was closed on July 18, last.

A warrant was sworn out for the arrest of Strang early this month, on a charge of embezzling \$7,000. "Fliters" were sent to the police of several cities, giving the number of his brilliantly colored touring car. It was when Strang tried to sell his automobile yesterday that the police of New York took him into custody. He immediately admitted his identity.

Strang's arrest, which the District Attorney's office has been trying to effect for several weeks, came as the culmination of a day in which former State Banking Commissioner Daniel F. Lafean was arrested in York, and was held by a York German in \$500 bail for a hearing in Philadelphia, September 8, in which also Evan L. Ambler, assistant cashier of the bank, was held in \$5,000 bail, contrasting with that of Lafean, for a hearing on September 5, following his arrest on complaint of a stockholder and depositor at the bank, and in which Louis H. Michel, president of the bank, and William T. Gabel, a director, were given a hearing and held in \$10,000 bail each for court.

Pinnacle Rock of Mount Rainier Scaled First Time Tacoma, Washington, Aug. 23.—The hitherto unconquered north side of Pinnacle Rock on Mount Rainier was scaled for the first time Thursday and named "Yale Trail" by five college oarsmen and four expert guides. Those making the trip over the sheer rock face were F. H. Brownell and C. C. Peterson, of Seattle; Harvey Cushing, of Cleveland, Ohio, and Samuel Lambert, of New York, all members of the 1919 Yale crew, and H. M. Balm, of Seattle, member of the 1919 crew of the University of Washington. A Swiss guide piloted the party and by the use of ropes the climb was made up precipices where a misstep would have meant a fall of hundreds of feet.

Flier Alights on Roof in Newark; Takes Off Again Newark, N. J., Aug. 23.—A successful landing and "take-off" in an airplane from the roof of a building was accomplished yesterday by Edwin E. Baulough, formerly of the Canadian aviation service. Carrying one passenger, the aviator circled the army quartermaster's office building here to a height of 700 feet and landed gently on the roof, which is 9,879 feet long and 50 feet wide. The machine then was wheeled to one end of the roof and the motor started. After taxiing a short distance the machine again

Warn Rumania Her Requisitions Will Be Deducted From Indemnity Paris, Aug. 23.—The preparation committee of the Peace Conference has drafted a note which the Supreme Council probably will send to Rumania immediately warning the Bucharest government that reparations under the German and Austrian treaties will be entirely cut off if the Rumanians continue to make requisitions and that all requisitions already made by the Rumanians in Hungary will be deducted from that nation's share in the indemnity to be paid by Austria.

Federal Regulation of Packers Finds No Friends or Advocates Washington, Aug. 23.—Federal regulation of the packing industry, proposed in the Kenyon and Kendrick bills, now on hearing before the Senate Agriculture Committee, found neither friends nor advocates in the long list of witnesses who aired their views yesterday. Though those testifying came from points all the way between Missouri and Georgia, and their occupations range the gamut from farmer, through feeders, stockers, retail butchers and dealers in produce, and while their opinions as to the reasons and responsibility of high cost of living were diverse and occasionally most forcefully put, the packers, all insisted, should be let alone. Interference with them, the tenor of the statements ran, would be dangerous to the consumer and everybody else.

GREAT INCREASE SHOWN IN IMPORTS FOR MONTH Washington, Aug. 23.—Foreign trade of the United States came nearer reaching a balance during July than it has in any month in several years, the Department of Commerce announced, owing to an immense increase in imports and a sharp reduction in exports. No Discussion of Treaty of Peace With Germany Paris, Aug. 23.—The Supreme Council has decided to send two more notes to the German delegation at Versailles. The first will ask that restitution be made to the Jugo-Slav government for the Constolatz mines seized by Germans during the war and exploited. The second will acknowledge a message expressing the intention of the German government to hand over to the Allies documents relative to damages done invaded territories, and especially those arising from requisitions.
