Allied Communication to the Hungarian Archduke Is Given Out

Bu Associated Press.

Paris, Aug. 23 (Saturday).-The Su preme Council has sent the followpreme Council has sent the following note to the Hungarian government in which announcement was made that the council would have no dealing with a government headed by Archduke Joseph, or any other member of the Hapsburg family:

"The Allied and Associated powers have been further considering information derived from our reports, and from other sources, as to recent events in Budapest. Their conclusions are as follows:

from other sources, as to recent events in Budapest. Their conclusions are as follows:

"They are most anxious to conclude a durable peace with the Hungarian people, but they feel that this cannot be done while the present Hungarian government is in power. That government came into existence not by the will of the people, but by ya coup d'etat carried out by a small body of police, under the protection of a foreign army.

"It has at its head a member of the House of Hapsburg, whose policies and actions were largely responsible for the calamities under which the world is suffering, and will long suffer. A peace negotiated by such a government is not likely to be lasting; nor can the Allied and Associated governments give the economic support which Hungary needs.

"In its reply that Archduke Joseph is prepared, before approaching the Allied and Associated governments, to submit his claims to the test of popular elections, we must reply that this procedure cannot be satisfactory if the election to be carried out under the auspices of an administration which the Archduke himself controls.

"The difficulties in the way of ob-

tion which the Archduke himself controls.

"The difficulties in the way of obtaining the election of a faithful reflection of the popular will are, in the present unhappy state of Hungary, most serious. They would be overwhelming if an election were carried out under Hapsburg influence. Even if an assembly elected under such circumstances were really representative, no one would think so. "In the interest, therefore, of European peace the Allied and Associated governments mean to insist that the present claimant to the leadership of the Hungarian state should resign and that a government, in resign and that a government, in which all parties are represented, should appeal to the Hungarian peo-

Passes Good Anywhere
Inquiry into the number of passes was made by Senator Trueman H.
Newberry, of Michigan—who defeated Henry Ford—after he noticed a traveling companion the other day with a pass good over all railroads in all States. He found it numbered higher than 10,000, so on his return to Washington he put in a resolution, which the Senate adopted, calling for the number of passes granted to officials and their families. The figures do not include passes to workers other than officials, and do not include trip passes.

"Senators were astonished at the results, it having been thought that the government control would have the effect, as promised by Mr. Mc-Adoo, of greatly curtailing the number of passes, especially to members of families of officials.

"There were 1.590 wives, daughters, sons, other relatives and near relatives or railroad officials traveling of all-lines annual railroad passes during the last year of government operation of the roads. And there were 1.095 wives, daughters, sons, other relatives and near relatives of these officials who enjoyed the privilege of all-line annual Pullman passes.

"How the record compares with conditions under private operation of the roads cannot be stated, for the reason that the record has never before been public.

"Attached to the main report, which is very brief, is a complete list of the names, addresses and positions of officials themselves enjoying the privileges.

The Family Pass List

It was from this list that the following classification of the passholding relatives, etc., was obtained:
