BITRO-PHOSPHATE BEST THING FOR THIN PEOPLE

Women Need It to Bring Pink Glow of Health to Pale Cheeks and Fore-arms. Need It to Make Strong, Vigorous Bodies and Steady Nerves. Judging from the countless preparations and treatments which are continually being advertised for the purpose of making thin people fleshy, developing arms, neck and bust, and replacing ugly hollows and angles by the soft curved lines of health and beauty, there are evidently thousands of men and women who keenly feel their excessive thinness.

CARUSO PAINTED HIS OWN HOUSE IN THE VILLA OF HIS COUNTRY

Florence, Italy, Aug. 26.—A house painter with now and then a touch of domestic carpentry for variety is what Enrico Caruso, grand opera star, becomes during his summer retreat in his villa in Signa Lastra. While he is constantly disturbed by delegations of "men with red bands on their arms" as he terms the extreme radical elements in the present Italian unrest, he takes it all good-naturedly and continues his painting.

The correspondent of The Associated Press recently called on the artist and found him decked in a loose sport shirt, lounging trousers and slippers. The meeting took place in the drawing room of the villa overlooking a heavily laden valley of vineyards. Caruso strolled in leisurely his sleeves tucked up and said: "I have been working."

Utters Grave Warning Against Activities of Extremists in India

London, Aug. 25.—A grave warning about possibilities in India arising from the activities of the extremists was uttered to-day by Sir Harrington Verney Lovett, who has

held many important positions in the Indian Government in the course of testimony before the committee of the Government which is considering the India bill. Sir Harrington said the extremists were increasing rapidly and were using against the Government a vigorous propaganda, combative and Nationalist, and backed by slander and misrepresentation. A strong lead was needed from

England, he declared, otherwise the ruin of India and British interest there would be accomplished. A policy of "drifting" might mean the introduction of premature home rule with strife and disorder, he said.

He has declined designation by the Democrats for member of the New York State Legislature. Gaffney is chief of police at a local manufacturing plant, employing 1200 men and says he is satisfied with his job. His greatest exploit in the war was the capture, single-handed, of 84 Germans.
