BRICKLAYERS TO CONTINUE STRIKE

Pass Resolution to That Effect at Meeting Held Last Evening

At a meeting held last evening in Harrisburg the bricklayers, who walked out of the local steel plant last Friday, voted to continue the strike. The meeting was attended by forty-nine of the sixty-five who walked out. The men are members of No. 71, Pennsylvania Bricklayers, Masons and Plasters International Union of America.

A report of the matter has been forwarded to state officials of the union, and Elmer Spahr, president of the State organization was expected to arrive in Harrisburg today. A number of the bricklayers are said to have returned to work at the old rate of sixty cents an hour. A demand had been made by the strikers for a raise to seventy cents per hour. The men worked on an eight-hour basis, and were receiving time and half time for overtime work. The officials refused to grant the increase in rate demanded but offered to give them a ten-hour day, paying them for eleven hours. The men rejected the offer.

Ex-Czar and Entire Family Slain in July, 1918, Official Prober Reports

London, Aug. 26.—Alleged authentic details of the killing of Emperor Nicholas of Russia and the other members of the Russian royal family, at Yekaterinburg, on July 17, 1918, are contained in a report drafted by an unnamed French officer who had been employed in an official capacity in southern Russia, was made public yesterday by Reuter's Limited. The story purports to have been told by a sentry who guarded the royal family while its members were under detention.

Under the orders of Commissary Kourovsky, the account runs, the Emperor, the Empress, Crown Prince Alexis and the Grand Duchesses Olga, Anastasia, Tatiana and Xenia, together with Court Physician Botkin and three servants, were taken to an underground room. No interrogation occurred. The Emperor carried his son in his arms, because of the boy's inability to walk in consequence of illness. Jourovsky, another Bolsheviki leader, and nine Lettish soldiers, the account continues, entered the room and immediately shot all the occupants.

The sentry, on hearing the reports, dashed into the room, he says, and saw eleven bodies lying on the floor. Only the Emperor's son was still alive. Seeing this, the narrator added, one of the Bolsheviki party killed the Crown Prince with a point-blank shot.

Jewelers Report Trade Helped by Prohibition

Chicago, Aug. 26. — Delegates to the American National Jewelers' Association convention declare that not alone are diamonds soaring in price but never before were they in such great demand. The finest diamonds, they say, are now quoted at \$1,000 a carat and are going higher. In these times of high wages buyers of these gems have multiplied by hundreds. The result is a scarcity of goods and extraordinary effort on the part of dealers the world over to obtain an increased supply.

"The jewelry trade is not affected by the high cost of living," said Joseph Mazer of New York. "Big pay enables many people to enjoy luxuries they never could afford before. Prohibition also helps the jewelers; a large part of the money that used to pass over the saloon bar is now spent for jewelry."

FATIMA TURKISH CIGARETTES

LEADERSHIP

A fact:

With the exception of a few lower-priced brands, Fatima is the largest-selling cigarette in America.

Its sales nearly equal those of all straight Turkish brands combined.

To have won and to hold such leadership, Fatima must (and, of course, does) deliver something to smokers that money cannot buy in any other cigarette.

What is it? The answer is: "JUST ENOUGH TURKISH."

Straight Turkish cigarettes seem to have too much Turkish—the poorer Turkish blends, too little. Fatima, on the other hand, has "just enough Turkish."

Just enough to taste right and just enough to leave a man feeling right, even when he smokes more than usual.

Are you, personally, smoking too much—or too little—or just enough Turkish?
