Fifty Million Approve Principles Which Would Fix Maximum Returns at 6 Per Cent.

Washington, Aug. 29.—Principles of the Warfield plan, under which a minimum interest return of six per cent. of railroad securities would be guaranteed through a mandatory adjustment of rates by the Interstate Commerce Commission were endorsed by fifty million persons owning or directly interested in railroad securities...

HAND-PICKED MEN ON JURY

Ansell Charges Fostering of Unfair and Prejudiced Investigations

Washington, Aug. 29.—Fostering of unfair and prejudiced investigations of army court-martial practices through "packed" bodies of inquirers, were charged to Secretary Baker and Judge Advocate General Crowder today by Samuel T. Ansell, former acting judge advocate general.

Resuming his statement before the Senate Military subcommittee, Mr. Ansell declared that the inquiries made by the American Bar Association Committee, Inspector General Chamberlain and the Army tribunal headed by Major General Kernan, were "biased" and that recommendations in favor of the existing court-martial procedure were a foregone conclusion.

Desperate Efforts. "They indicate the desperate efforts of the War Department to bolster up the present system," he said. The American Bar Association Committee, Mr. Ansell asserted, "was hand-picked" and "stacked" with men known to support the position of Mr. Baker and General Crowder.

Mr. Ansell said his charges of obstruction by War Department officials of his effort to form court-martial practices had been misinterpreted. He did not mean to include General March, chief-of-staff, among the obstructionists, who, he said, were Secretary Baker, General Crowder and Acting Judge Advocate General Kreger.

KIWANIS CLUB HAD FULL DAY OF SPORT

Many Visitors Entertained in Royal Fashion at the Annual Outing of Businessmen's Organization

Hershey, Pa., Aug. 28.—More than a thousand Kiwanians from nineteen cities took Hershey Park by storm yesterday and after the capture proceeded to make merry at a big intercity picnic.

The Harrisburg delegation went to Hershey in autos leaving the city in the morning. Kiwanians from other cities came by auto and trolley during the early afternoon, swelling the big crowd.

The Municipal Band of Harrisburg, arrived in the morning with the club from the city, and during the day they furnished plenty of catchy numbers for marching or impromptu concerts while the prize contests were on.

Every Kiwanian at the park declared that the day started off just right. Buffet luncheon was the start and they all displayed that the cases of poor appetites in the crowd were very few.

A sort of "get together" and "my name's Jones, glad to see you here Smith" spirit followed with the members of the various clubs, arriving in front of the restaurant in groups and enjoying outbursts of song and cheers.

Things A-Stirring. "Charlie" Schmidt, of the Harrisburg club, was everywhere stirring up things. "The times are hard to see because of the big megaphone and the green fireman's hat he carried, also the motion picture camera. He was the three in one, keeping things moving at the picnic.

From present indications, (as political writers would say) it appears that a public accountant or a United States census taker may be employed to determine which city wins the prize for having the largest attendance.

A Kiwanis banner is to be given for the honor and Lancaster and Reading are the contenders. An official count will be necessary and the result will be announced later.

The Best Looker. Roe Fulkerson, editor of the Kiwanis Torch, and the speaker at the dinner at the dining room of the city, was voted the best looking man and received a gold cigarette case as a prize.

J. Frank Palmer, president of the Harrisburg C. E. Alumni Association, is stirring enthusiasm among the Endeavorers for members in the new organization. He is enjoying the outing with a lively bunch of picnickers.

President Emily Edwards, of the Dauphin County C. E. Union, is

putting "pep" into a number of the county delegates and has already promised them a lively rally in the upper end of Dauphin county, during the coming fall days.

Frank S. Montgomery, president of the Harrisburg Christian Endeavor Union, says: "That poling rally last spring was great, the Buffalo conference was interesting, but this picnic is a 'Jonah.'" He is recuperating under the "shades" along the park creek.

Contests and games were special features of the day's sports from early morning until late in the afternoon. The baseball diamond was dotted with hundreds of persons who were eager to get into the games.

Twenty thousand trucks, found useless to the war department, are to be given away by the secretary of agriculture to the highway departments of the various states, which have only to pay loading and freight charges to acquire the machines. The value of the trucks is over \$54,000,000. Of the total number 11,000 are new and 9000 have been used. All are in serviceable condition. The capacity of the trucks ranges from two to five tons each. Under the law which authorizes the distribution of the trucks, the states to which they are given must use them in the construction of roads for which Federal aid is given.

France Buys Surplus Supplies of the A. E. F. For \$400,000,000 Gold

Washington, D. C., Aug. 29.—Arrangements for the sale of all surplus Army property in France to the French Government have been perfected, according to an announcement by the War Department.

This will mean the disposal of all effects remaining in France as a result of the presence of the American Expeditionary Forces, except the quantities allotted for the return to this country and for the use of the remaining troops.

The terms of the sale provide that the French Government shall pay \$400,000,000 in gold for the supplies. The cost will be met by the issuance of French bonds, with interest at 5 per cent, from August 1, 1920, payable semiannually and maturing in ten years.

The property consists of docks, wharves, railroads, storage buildings and barrack buildings, automobiles, tools, textile supplies, chemicals, printing plants, hides, leather and a large number of additional items. The French Government assumes all outstanding claims, of which there is a great variety.

The original cost of the property thus disposed of has been variously estimated, the maximum figure rising as high as \$1,700,000,000.

TAXPAYERS OBJECT. Complaint was filed today by the Taxpayers' Protective Association, of Nesquehoning with the Public Service Commission against the new rates and regulations of the Panther Valley Water Company, which are characterized as excessive and unfair.
