CHANDLER SIX
Famous For Its Marvelous Motor

The Year's Most Pleasing New Sedan

THE season offers no other sedan so pleasing in the beauty of its lines and its furnishings, as the new series Chandler Sedan. And there is none that may be compared with it at anything like its price.

The new Chandler Sedan is the highest expression of years of development in the creation of closed bodies. It is beautiful to look at, and most comfortable to ride in. It has style and refinement that must appeal to those who care for the finer things.

This car seats seven persons most comfortably or five when auxiliary chairs are not in use. The front seat is solid, not divided as in previous models, and the window posts are a permanent part of the body, not removable. The windows, however, may be lowered away or adjusted to suit the weather and the wish. The entire interior is upholstered in finest quality silk-plush of pleasing pattern for cushions and plain tone for head lining. Interior fittings are in dull silver finish.

Despite the largest production in the history of the Chandler company, the demand for the new series sedan will quickly consume the production for weeks to come. Your early order will be a safeguard against disappointment.
