

TEMPLARS ADOPT 500 WAR ORPHANS

Prizes For Competitive Drills Were Awarded Today in Philadelphia

Philadelphia, Sept. 11.—Competitive drills, an executive session of the Grand Encampment and a visit to the Hog Island shipyard were features of yesterday's program of the triennial convocation of the Knights Templar of the United States. At the meeting of the Grand Encampment it was announced that five hundred war orphans of Masonic parentage have been "adopted" by the Knights Templar of the United States. The French government is to supplement the Knights' expenditure by paying dollar for dollar with them for the education and maintenance of the orphans. It was recommended that \$5,000 be contributed from the grand masters war relief fund for the rebuilding of the Hospital of St. John at Jerusalem. Invitations for the convocation in 1922 were presented from New Orleans, Seattle, Chicago and St. Louis. Prizes for the drills were awarded today. An elaborate fireworks display was held last night.

HUN LOSSES AS OBITUARIES

Are Gradually Being Made Known Through the Newspapers

Berlin, Sept. 11.—Related news of the losses incurred by German families and organizations, military or civilian, as it is verified, is being placed in the newspapers in the form of obituaries. The Baron von Wangenheim family recalls its dead in a great black-bordered advertisement in which are named twenty-two members of the family who have fallen for the Fatherland, all except two of them, officers. Similarly the family Baron von Puttkamer, little known in Germany, but not as large a family as the Wangenheim, announces the loss of nineteen members, ranging from non-commissioned officers to lieutenant colonel. Individual regiments, divisions and naval units, are daily letting their individual losses be known, and they make a formidable appearance, and attest to the bitter severity of the war. In this connection it is interesting to note estimates of the Ministry of Finance about the cost of the war to Germany. It amounts to about \$35,500,000,000, according to the peace-time rate of exchange.

PERKINS FAVORS PROFIT SHARING ON FAIR BASIS

Only Solution to Industrial Unrest, He Tells Civic Federation

New York, Sept. 11.—Profit-sharing on a frank and fair basis was declared to be the only solution of the present industrial unrest in a speech delivered at the annual meeting of the National Civic Federation here today by George W. Perkins. Mr. Perkins said he was convinced that labor was entirely willing that capital should have its "fair reward and proper protection," but that there were too many instances in which capital had demanded "improper protection and had taken exorbitant reward." At the same time Mr. Perkins denounced the systems as doing more harm than good and stirring up trouble rather than alleviating it. The giving of bonuses, he claimed, caused employees to feel that the employers were making vast sums of money out of which a sop was thrown to them to bribe them into feeling kindly disposed or to ward off a demand for a general increase in wages. **Proposes This Scheme**
As an alternative Mr. Perkins proposed a definite detailed scheme of profit-sharing which he said had been adopted by some companies with which he was connected and had proved most successful. He described this plan as follows: "First—Every business has, first of all, to earn operating expenses, depreciation, and fair returns on honest capitalization. Second—I believe that every business should consider that the compensation paid employees is for the purpose of earning a sum of money sufficient to pay the above-mentioned items. Third—I believe that any profits over and above such sum should, on some percentage basis, be divided between the capital used in the business and the employees engaged in the business. Fourth—I believe that in neither case should these profits be immediately withdrawn from the business; that they should be carried to surplus, that, in the case of employees, their share of these profits should be distributed to them in some form of security representing an interest in the business, and that each employee should be required to hold such security for a reasonable length of time, say three to five years. Fifth—I believe that the employee's share of these profits should be allotted to them as nearly as possible on the basis of the compensation they receive. Up to date, this has proved to be the best method." The employer who objects to profit-sharing because he is making so much money "that he is afraid to let even his own employees know how much money he is making" was declared by the speaker to be "more than any other, responsible for the serious differences to-day existing between capital and labor for, with the growing intelligence of the masses, how can he expect such a situation to continue? Every year, yes, every day, it becomes clearer and clearer that such a condition will no longer be tolerated and must speedily pass away. Would it not be better for him to use some intelligent foresight and meet what clearly are to be the immediate future demands of public opinion?" **Co-operation Needed**
Perkins said that the history of the relations between labor and capital could be traced through the term successively used to denote the man who worked for a wage and the man who paid the wage. First it was "owner and slave," then it became "master and man" to-day it is "employer and employ" and to-morrow, Mr. Perkins declared he believed "it must be 'partners.'" In conclusion he said: "Since the beginning of time no country has ever had such an opportunity to extend its trade, increase its prosperity and better the material condition of every one of its people as has the United States of America at this hour. The only factor missing is that of close co-operation here at home among ourselves. It seems inconceivable that we will fail to realize where our weakness lies and fail to adopt the one and only remedy for it. In the strenuous competition with the rest of the world that this country is on the eve of facing could we have a stronger weapon than complete co-operation between capital and labor at home?"

JUMPING INTO THE MOVIES
One hears the most astonishing things about the prices that are paid to moving-picture stars, when one discovers that they are true. A pretty girl worker on a Los Angeles "lot" for \$10 a day as an extra woman. A studio needed a woman to do a particular bit, and found that she filmed well. So it was decided to make her a star. Her contract called for \$150 weekly for the first six months, rising to \$500 at the end of the second year. After the second picture she demanded \$500 a week and \$1,000 weekly at the year's end. A "type" hired a taxicab to hurry him to a lot on which a picture was being "shot." Ordinarily types ride on street cars, for the best of them are rarely paid more than \$15 a day. The United States Senatorial type can be had in quantities at \$10 for the day's work. But this type was late and feared to lose his job. A bawling manager met him at the door. "You—you" began the manager. Then his eyes fell upon the chauffeur. "You're just the type I want!" he shouted. "Come with me!" Eventually the chauffeur consented to run his cab back to the garage and walk on in a scene as a type of something or other. The chauffeur filmed well. Therefore he is now being paid \$400 weekly, though his heart is said to be with the taxicab. A bartender made a few dollars one day shaking up cocktails before the camera. His features came out with cameo clearness, and he followed the director's orders with the careful obedience of a good child. That made him a film actor. Now he can depend on an income of \$15,000 a year.—Herbert Corey, in Everybody's.

LACLEDE TO PAY TRIBUTE TO "JOHNNY" PERSHING UPON HIS VISIT THERE

Entertainment Will Include Reunions With His Old Schoolmates, Trips to the Old Swimm' Hole on Muddy Creek and to the Old Pershing Farm

Laclede, Mo., Sept. 11.—General Pershing is coming back to his boyhood home here. He will return a full-fledged general, the hero of America, but to the boyhood companions with whom he stole apples, and played at the old swimm' hole, it will be the "Johnny" Pershing who spent his early life here before going away to West Point to embark on a military career. A cablegram received by Mayor Edmund B. Allen promises a visit by the General shortly after his arrival in the United States. Some time ago, when Laclede learned that General Pershing was returning from Europe, the following cablegram was dispatched to him by Mayor Allen: "Laclede, your old home, your boyhood friends and Linn county are calling you. When may we expect you home?" General Pershing cabled in reply: "I have heard the call. Will be there soon after my arrival in the United States. Can't give you definite date now, but will let you know later." Laclede will pay tribute to General Pershing on his arrival, not with the pomp and ceremony that marked his reception in European capitals, but with a "good old-fashioned Missouri home-coming," according to the committee arranging for his reception. Plans for the General's entertainment include reunions with old schoolmates and chums, trips to the old swimm' hole on Muddy creek and to the old Pershing farm. The homecoming will also mark a reunion of the Pershing family.

James Pershing, of Chicago, the General's brother, and Miss May Pershing and Mrs. Bessie Butler, of Lincoln, Neb., his two sisters, will gather at the former Pershing home during the General's stay. The reception will not be without a military side. Decorated heroes of Missouri will form an honor guard. Adjutant General H. C. Clark, of Missouri, will have charge of the military reception. Among old acquaintances who will greet General Pershing are "Aunt" Louisa Warren, who claims to have been present when the future military leader was born in a railroad section house several miles from here. Both are negroes.
