

JOHNSON BLAMES HIGH COSTS ON THE PRESIDENT

California Senator in Indianapolis Attacks Wilson's Insistence on Treaty

Indianapolis, Sept. 12.—Senator Hiram W. Johnson, of California, continuing his speaking campaign in the Middle West in opposition to the ratification of the League of Nations Covenant in an address here last night declared that if responsibility for the high cost of living rests upon any agency or man, it rests upon the present national administration and Woodrow Wilson.

"President Wilson adds to his former harsh names, appeals to our material interests, and even taxes the two months that the League and Treaty have been before the American people and Senate with the high cost of living," said Senator Johnson.

"He conveniently forgets the eight months he spent abroad, secretly pledging our resources and our manpower to European and Asiatic Governments. The two months of discussion by our people and our Senate in the open of what he discussed secretly for eight months has had, of course, no bearing upon, and the reasonable discussion in the future cannot possibly affect, the high cost of living."

"If any single individual can be charged with responsibility for the high cost of living that man is Woodrow Wilson. The living costs in December and January last were substantially what they are to-day. Mr. Wilson then had exactly the same laws in effect."

"Never Even Touched Subject" "He had never time nor inclination to deal with a problem then practically as it is now. He never even touched the subject, except patting it off as an ephemeral ill of no consequence or importance. He makes its solution depend now upon the immediate ratification of his Treaty. He would frighten us by a cheap and specious statement, devoid of economic logic, and wanting in any sound reason. He covers his own dereliction by an unfounded counter charge. Remember his address to Congress, December 2 last.

"The moment we knew the armistice to have been signed, we took the harness off. It is surprising how fast the process of return to peace footing has moved in the three weeks since the fighting stopped."

"His idea of reconstruction then was, it will not be long to direct it any better than it will direct itself. When he had ample time for action last December and might have prevented the subsequent continuance of high prices, these are his words: 'Our people do not want to be coached and led. Any leading strings we might seek to put them in would speedily become hopelessly entangled, because they would pay no attention to them and so go their own way. The American businessman is of great initiative.'"

"Smashed Food Administration" "At that time we had a competent Federal Food Administration, completely organized throughout the nation. Mr. Wilson deliberately scrapped this vast organization, which might have removed a part, at least, of the cause of high prices. Now, months after he has dismissed the Federal and State agencies, he is calling them together again to deal with the question."

"Speaking of Article X of the Covenant of the League, Senator Johnson, after quoting President Wilson's interpretation of the section, said: 'It makes America underwrite every territorial grab of every other nation, every wrong and injustice done peoples, every bargain by which human beings have been handed about from one sovereignty to another, every violation of natural right and self-determination, every oppression of the strong over the weak.'"

33d-Degree Masons to Meet in Philadelphia Philadelphia, Sept. 12.—Thirty-third-degree Masons of the northern Masonic jurisdiction will assemble here next week at the annual supreme council. About 1,000 persons, including both Masons and their wives, are expected to visit the city. These will come from the New England, New York, New Jersey, Pennsylvania, Delaware, Ohio, Indiana, Illinois, Michigan and Wisconsin. This will be the first time the supreme council has convened in Philadelphia in 100 years.

Functions arranged in connection with the council will begin Sunday, when at 1 o'clock in the afternoon there will be a special religious service at the Church of the Holy Trinity, Nineteenth and Walnut streets. The Right Rev. Dr. Robert L. Harris, bishop coadjutor of the diocese of northern Michigan, will preach. Music will be rendered by the Masonic Consistory choir. There will be a reception Monday night at the Bellevue-Stratford.

Business sessions of the council will begin Tuesday morning at 9 o'clock in the afternoon at the Ritz Hotel. The council will meet on Tuesday night the thirty-third degree will be conferred on new members in Corinthian Hall, Masonic Temple. The degree is conferred only once a year, the recipients of it being obliged to come to the supreme council for the ceremony.

Student Classes For the Public Library Arrangements have been made by Miss Alice R. Eaton, the librarian of the Harrisburg Public Library, to hold an examination next Saturday, September 20, for the student class of the library.

Many requests have been made for the establishment of this class, which was successfully conducted a few years ago. Some of the applicants have been connected with the city school system.

MAY START EARLIER Brussels, Thursday, Sept. 11.—Rear Admiral Andrew T. Long, naval attaché of the United States embassy in Paris, and Norman Armour, charge d'affaires at the American embassy here, were received at luncheon by King Albert yesterday to discuss plans for the king's voyage to America. While it seems that September 22 is the date fixed upon for King Albert to sail for the United States, it is quite possible he will start immediately after meeting with the supreme economic council here on September 18.

SAYS MOVIES MAKE WOMEN BEAUTIFUL

Graceful Walking and Good Faces Are Result, Sculptor Declares

Chicago, Ill., Sept. 12.—"Girls will be psychologically affected by moving pictures," says Lorado Taft, the sculptor. "They see beautiful women on the screen; then they go home and practice for hours before the mirror. The outcome? Graceful walking, pleasant faces, fine complexion and vivacity. Still the boyish and caper-cutting movie actresses are a bad influence."

In the opinion of Miss Indiana Gygerson, an Irish painter who has studied in Paris and Madrid, the movies have made American women more beautiful.

"Ah, the rising generation of Chicago girls," she exclaimed. "One sees a far larger number of charming women here now. Let them talk to the clerks, dancers and rich pastry ruining the attractiveness. It is the movies that are molding ever-fresh types of native beauty—new American types."

Yet she conceded that the screen plays wield an influence that will work either good or evil.

"Remember the recent avalanche of 'vamps' in Chicago," she went on. "Girls who slinker-slouched when they walked, rolled their eyes alluringly and tried to look naughty? They were copying the movies of the moment. Now we're getting the athletic, vigorous, smiling girl in the films. It is good. As DeMaupassant said: 'All women are imitative as monkeys.' The speedy action of the films has made girls vivacious."

A prominent designer and importer of women's gowns declared the films have had an important effect on the demand for certain styles, particularly gowns of simple, classic lines and "intriguing fabrics," and a druggist reports the sale of cosmetics has increased 25 per cent since the movies became popular.

Lone Nation Can Never Menace Us, Says March Washington, Sept. 12.—"No one nation can menace the United States," declared Chief of Staff March yesterday at the house military committee. He urged adoption of the War Department reorganization plan for a regular army of 509,000 men and 25,000 officers, with a system of universal military training which would be the skeleton of a field army of 1,250,000.

Ready to Announce Wood in 1920 Race New York, Sept. 12.—It is understood that within a few days, friends of Major General Leonard Wood will announce his candidacy for the Republican nomination for President.

A fund for the promotion of his candidacy is being raised and many of the Republican leaders of the Nation have been quietly sounded out on the subject.

How To Get Health When You Are Weak, Run-Down, Nervous And Tired On The Slightest Exertion. This condition shows that Iron, the life and strength of your blood is wearing out, your nerve force is decaying and vitality is becoming low.

Disease acts only on those whose blood is thin and watery, impoverished or impure and never affects persons whose blood is rich and pure with plenty of iron in it. Dr. Chase's Blood and Nerve Tablets are a wonderful restorative because they contain Iron, Nux-Vomica, Gentian, Capsicum, and Zinc Phosphide which makes them a most valuable tonic for the sick, convalescent and overworked. Each dose means more energy, more nerve force, more strength. They put snap into you which makes life worth living. Sold by Druggists 60 cents. Special, (Stronger) more Active 90 cents.)

Belmont Juniors Will Start Practice Tonight The Belmont Juniors have organized a football team and would like to arrange games with teams who average 130 pounds. The following players are requested to report for practice at Twenty-second and State streets, this evening at 6:30.

Rosenberger, G. Davis, Kline-von, Shadle, Hendricks, Cain, Woodland, Moore, Albright, Shuey, Madler, Albert, Henry, Longnecker, P. Black, R. Black, Ed Schlosser, C. Schlosser and Shreiner. Any teams wishing games write T. H. Davies, 1313 Green street, Harrisburg, Pa.

CUT THIS OUT OLD ENGLISH RECIPE FOR CATARRH, CATARRH OF THE EARS AND HEAD NOISES. If you know of some one who is troubled with Catarrh of the Ears, head noises or ordinary catarrh, cut out this formula and hand it to them and you may have been the means of saving some poor sufferer perhaps from total deafness. In England scientists for a long time past have recognized that catarrh is a constitutional disease and necessarily requires constitutional treatment.

Sprays, inhalers and nose douches are liable to irritate the delicate air passages and force the disease into the middle ear which frequently means total deafness, or else the disease may be driven down the air passages towards the lungs which is equally as dangerous. The following formula which is used extensively in the best English clinics is a constitutional treatment and should prove especially efficacious to sufferers here who live under more favorable climatic conditions.

Secure from your druggist 1 ounce of Ferrous (Double strength). Take this home and add to it 1 pint of hot water and a little granulated sugar stir until dissolved. Take one tablespoonful four times a day. This will often bring quick relief from distressing headaches. Clogged nostrils should open, breathing become easy and hearing improve as the inflammation in the eustachian tubes is reduced. Parmit used in this way acts directly upon the blood and mucous surfaces of the system and has a tonic action that helps to obtain the desired results. The preparation is easy to take, costs little and is pleasant to take. Every person who has catarrh or head noises or is hard of hearing should give this treatment a trial.

Central High Alumni Invites U. S. Senators

At a meeting of the Harrisburg High School Alumni Association held at Central High Auditorium last evening it was decided to invite Senator Knox and Senator Hitchcock to participate in a debate here on the League of Nations.

President Thomas presided over the meeting last night and plans were discussed for a membership drive.

Plans were discussed for the alumni dance, a banquet, and various educational features. Committee chairmen were appointed as follows: Executive, John B. Corl; Ways and Means, Walter S. Fisher; publicity, Richard Robinson; entertainment, Thomas D. Caldwell.

Soviet Government Predicted by Miners

Washington, Sept. 12.—A soviet form of government in the United States within two years unless something is done to check the "ominous movement throughout the country" was predicted yesterday by Senator Myers, Democrat, Montana, in a speech in which he referred to the threatened steel strike and the unionization of police forces throughout the country.

President Wilson's conference next month between capital and labor, the Senator predicted, would not check impending strikes unless the demands of the workers were met. Labor leaders, he declared, were making demands which they knew could not be granted.

WAR HISTORY TO BE SOCIETY AIM

B. M. Nead Calls Upon Members of Dauphin Co. Historical Society to Work

Activities of the Dauphin County Historical Society which resumed its meetings for the winter last night at the Society building, 9 South Front street, will be devoted to collecting the information needed to preserve the splendid story of what Dauphin county's sons did in the World War. B. M. Nead, the president of the society, last night urged every member of the society to cooperate with the Chamber of Commerce-Historical Society joint committee and to leave no stone unturned to gather a complete record of the names of Dauphin county's sons in the war.

"It is most important that we have a complete and authentic list," said Nead. "We can't get this only by personal work. Our society is to be the depository for this information for this county. We want the name of every man in the war sent here. We will keep a list and if men wish to come here and give their information some one will be here to take down the names. If the members of this society make it the business to get the name and unit and service of every man from our county in the war we will have a fine record. The story of our civilian activities we will also assemble."

Mr. Nead extended a general invitation to soldiers, sailors and marines and members of the business to give the date about war service to the postman or send it to the society rooms "at once, not next month."

In opening the meeting Mr. Nead referred to a plan of observing anniversaries, instancing "Constitution Day," which is September 17, and mentioning the part Central Pennsylvanians played in the framing of that historic document. He referred to the recognition of Harrisburg history in the program of the Kipona and to other historical activities in this community so rich in material and not generally appreciated. Mr. Nead also mentioned the possibility of pilgrimages to historic sites in Dauphin county, along the lines of those so successfully conducted by the Berks, Lehigh and other county historical societies and the Site and Relic Society of Pennsylvania and to the work of the Pennsylvania Historical Commission.

George F. Ross told of the way he established which company of the First Defenders reported for duty in Harrisburg in 1861. He dug it out of the Harrisburg Telegraph of that year which printed the facts about the arrival of the Logan Guards and the Reading artillery in the State Capital in response to Curtin's call.

Interesting donations were made by Miss Thron and Miss Peters, including books and pictures. President Nead referred to the death of George W. Parsons, long active in the society and a member of the executive committee, and appointed as a committee on resolutions A. Portenbaugh, Dr. Hugh Hamilton and Warren G. Zollinger.

Bean Stalk of Great Size Grown From One Seed

William Ulrich, 929 North Second street, has produced what is probably the largest bean stalk growing from one bean, in the city of Harrisburg.

Mr. Ulrich, who has been a Telegraph subscriber for about 60 years, said that this stalk was grown from the merest chance. Having received some beans from a friend in York county, Mr. Ulrich had them served up and pronounced them the most delicious beans he had ever eaten. Accordingly he determined to plant them, but upon investigating, he found only two left.

These two he placed in his desk, and eventually planted one of them, late last season. This summer the stalk has grown to tremendous length, spreading for seven feet or more over the fence against which it grows. Mr. Ulrich expects to have a large crop of succulent beans very shortly, and hopes to plant enough to supply him for the whole of next summer.

WAR HISTORY TO BE SOCIETY AIM

B. M. Nead Calls Upon Members of Dauphin Co. Historical Society to Work

Activities of the Dauphin County Historical Society which resumed its meetings for the winter last night at the Society building, 9 South Front street, will be devoted to collecting the information needed to preserve the splendid story of what Dauphin county's sons did in the World War. B. M. Nead, the president of the society, last night urged every member of the society to cooperate with the Chamber of Commerce-Historical Society joint committee and to leave no stone unturned to gather a complete record of the names of Dauphin county's sons in the war.

"It is most important that we have a complete and authentic list," said Ne
