Millinery**
Attractively Priced

New in line and charming in detail are the hats assembled in our millinery department. They are sure to meet with success. The latest arrivals feature large picture hats so well adapted to this season's vogue of feather fancies and there are hats with softly draped brims and brims turning away from the face, shirred turbans and tam effects. Paris fashion authorities say that the tricotine will be unusually popular. Trimmings too are a fascinating story of variety and newness. Embroidery, stitching, effectively employed.
