Some Observations on Baker's Letter, as Published In the Gang Controlled Newspaper on Sept. 13th

W. Harry Baker, acknowledged "Boss" of the Ring in Dauphin County, attempts to camouflage the real issue in this campaign by warning of Democratic propaganda. He is lamenting the fact that Democrats by the hundreds are joining the ranks of the G. O. P. He attempts to becloud the real issue by calling the attention of Republicans to the fact that the contest this year is, "a skirmish in anticipation of the great battle of He refers in this to Lincoln, Grant, McKinley and Roosevelt and winds up by an appeal to Republicans to support his slate for County and City Offices, as if to create the impression that unless his slate is elected, the Republican party would go to

The fallacy of the argument resorted to by Mr. Baker must be apparent to every sober minded, thoughtful Republican, who is interested in the success of the Party, rather than in the success of those who are masquerading as Republicans and as the

How could the future of the Grand Old Party be affected by the defeat of the Gang Slate tomorrow? If you, Mr. Baker, are really interested in the future of the Republican Party in this County and State, it would seem natural for you to welcome into the Party, members of all other political parties. By your failure to do this, the only logical conclusion is, that you are more interested in furthering your own political ambitions and a few of your cronies, who have been bossing politics in this County for the past six years, or more. Don't you think that the welfare of the Party would be enhanced, if you and your associates would refrain from using the County Committee before the primaries and thereby give equality of opportunity to all candidates? Was this not the intention of the Legislature, which framed the Uniform Primaries Law? Was it not intended that there should be OPEN PRIMARIES?

If you have the success of the Republican Party really at heart, why do you as the "Bir Rose" normalise of the Republican Party really at heart, why do you as the "Bir Rose" normalise of the Republican Party really at heart, who are also officers.

"Big Boss," permit a chosen few of your cronies and associates, who are also officers of the County Committee, to hold all of the County and City Offices? Is this in furtherance of the interests of the Republican Party? You wind up your article by saying, that the interest of the Party demands the election of the slate, which also appears at the end of your article. This leads to the conclusion that the thought that is in your mind in this connection is, that you are better qualified to decide who are the right persons to hold the offices of the County and City than anyone else, and that you are to do the thinking for all other Republicans in the County and that all you and your associates have to do, is, get together, fix up the slate and the voter has nothing to do but ratify your choice. You seem also to insinuate, that any Republican who does not think the way you and your associates think, is irregular.

Your article places you in rather a strange position. In one part of your article, you further camouflage by decrying the fact that many Democrats have become Republicans, with the intention of raiding the Party primaries, and in the same breath, you declare their purpose to be, to get away from the Democratic Party because they are no longer in sympathy with the Wilson Administration. You give this as their reason near the conclusion of your article, and thus we have two conflicting statements. When a man makes a Will and there are conflicting statements therein, the rule of the law is, that what a man says last in his Will shall prevail over what he has said before. A man has in mind his impending death, when he makes his Will and from outward ap-

pearances, it looks very much as if you and your aggregation will meet your political death at the primary tomorrow.

How do you figure out that the welfare of the Republican Party would be advanced by the nomination and election of Moyer as District Attorney, when he has failed to do his duty as your County Solicitor? You know this to be the fact, don't you? Have you not heard even the present "Boss" controlled County Commissioners complain about his neglect? Have you not heard numerous complaints about his failure to bring suit in the case of the Coroner? Have you not heard the voters complain because your Commissioners have not compelled him to act? Don't you think the welfare of the Party would rather be promoted by the election of Edward F. Doehne as District Attorney? Has he not always been a generous contributor to the cause of Republicanism in this County and State? Has he not always been an active Republican, working energetically to elect the Party's Candidates after they had been nominated? Would not the future welfare of the Republican Party in Dauphin County be advanced by the defeat of Cumbler and Stine and the election of Gordon and Shadel, both vanced by the defeat of Cumbler and Stine and the election of Gordon and Shadel, both well known business men, who would inject business methods into the Office of County Commissioner, and whose hands would not be tied by a political "Boss?" How would the welfare of the Republican Party in the County be enhanced by the nomination and election of Taylor for Recorder of Deeds? Don't you honestly believe, down deep in your heart, that the future welfare of the Republican Party would be furthered by his defeat and the nomination and election of Lockwood B. Worden, who is a more popular candidate, and who would administer the duties of his office in such a satisfactory manner, as to be a credit to the Party and would not this be to the interest and advantage of the Party in the future? Have you ever heard any complaints about the way Lockwood B. Worden conducted his office after the death of his father, whom he succeeded? Have you heard any complaints about Taylor when holding public office? Which one was the greater credit to the Republican Party? And so, Mr. Baker, all along the line on your slate.

How do you figure it out, that it would be a benefit to the Republican Party to nominate and elect your other hand-picked candidates? Would it not be better for the Republican Party to nominate and elect Henry D. Koons for Sheriff, Carl B. Shelley for Register of Wills and Joshua E. Rutherford for County Treasurer, who are all just

as good Republicans as those whom you have named on your slate, as it appears at the end of your article in the Harrisburg Telegraph of September 13?

Do you think, Mr. Baker, that it is to the interest of the future welfare of the Republican Party, for the officers of the County Committee to collect hugh sums of money and to disburse it through the Party Machinery only in the interest of certain candidates of your own choice? Do you not thereby trample on the toes of all other candidates and their numerous Republican friends? Is this right? Is this fair? Does this give an equal opportunity to all, which is the spirit of true Americanism? refer to Theodore Roosevelt. What do you thing the lamented Roosevelt would have to say about such conduct as this? You refer to Lincoln, the great emancipator, who broke the shackles from the wrist of a million slaves. What would that sainted High Priest of Republicanism have to say to you and your associates, if he were in Dauphin County today?

The only sane and logical conclusion that can be drawn from the fact, that you, as the Secretary of the Republican State Committee, the person to whom the six hundred job-holders in the County have to go to for their jobs, is, that you are interested more in furthering your own ambitions and the political ambitions of two or three of your associates, rather than in the future welfare of the Republican Party in Dauphin County and in Pennsylvania, and so, we call upon you to desist from using your jobholders at the primary tomorrow and to call in your slate, which you have been forced to circulate in all parts of Dauphin County many days before the Primary. Your defeat is certain and the nomination and election of the following candidates is assured:

Edward F. Doehne District Attorney

Lockwood B. Worden Recorder of Deeds and Clerk of the Orphans' Court

Henry D. Koons Sheriff Carl B. Shelley

Register of Wills

Joshua E. Rutherford County Treasurer Frank M. Shadel David Gordon County Commissioners

Members of the D. S. Society of Central High School, class of 1919, initiated this year's members into the mysteries of the organization, on Friday night. The party was taken by truck, to Dauphin, where they were met by the president, Miss Christine Long. Thus reinforced they proceeded to the mountains above the town where the new D. Sers, with fear and trembling, met their fate among the "murmuring pines" and ghostly elms. What happened? Well, that is for the members only to know. It is sufficient to say that the only friendly object, from the initiated ones' point of view, was the moon peeping down through the trees.

At the conclusion of the mysterious rites, the party returned to the home of Miss Christine Long, at Dauphin, where a supper was served. There the 1920 girls became full-fledger D. Sers and received the pin of the society.

Reformed Ministers Are Here For Conference

Pastors of the Reformed Church of the Harrisburg district to the number of 175 met in Harrisburg to-day. They are here for the purpose of taking up the second branch of work in the forward movement of the Reformed Church in the United States. Two sessions were held at Reformed Salem Church, Third and Chestnut streets.

This was the first of a series of a dozen central conferences, in which ministers, laymen and laywomen will be quite active. The regional secretary here is Rev. William F. DeLong, whose headquarters are at 10 North Market square. The work outlined here will spread over a vast territory, and will cover the entire United States.
