

The National City Company buys \$10,000,000 of Firestone Preferred Stock

Firestone production is increasing so rapidly under demand from our 42,000 dealers that this additional capital was required

Although the two great Firestone plants at Akron are turning out daily 22,000 tires and 25,000 tubes, the demand from passenger car owners and truck operators continues to outstrip production.

Additional equipment already ordered for Plant No. 2, which is devoted exclusively to the manufacture of 3½ inch tires and tubes, will increase the output of this one manufacturing unit to 16,000 tires a day; while in the parent plant increased equipment for the manufacture of Cords is steadily building the output to its capacity of 20,000 tires daily, which will give a total capacity of 35,000 tires a day.

These equipment requirements and the need of a new steel plant that will double the output of Firestone Rims, are being met by an issue of \$10,000,000 7% Preferred Stock, the entire amount being taken by The National City Company, the world's largest distributors of high grade securities.

On the financial page of this paper you will find an advertisement signed by The National City Company, which gives some interesting facts about the financial strength of the Firestone Company-----a strength that is founded on twenty years of sound business

policy and is an index of the character of the Company's products.

The National City Company is in the business of buying and distributing through its many correspondent offices the securities of corporations that are so well managed, so conservatively financed and whose products fill such a public need, that they measure up to its exacting standards of what should constitute a prime investment.

It is a high tribute to the quality of Firestone products and to the great dealer organization through which they are distributed that the demand for them should so increase as to require this additional capital to meet it. And it is a tribute to the character of the Firestone institution that the distribution of this entire \$10,000,000 Preferred Stock issue should be undertaken by The National City Company.

See that you get the values in mileage and service that are responsible for this demand for Firestone Tires and this standing of the Company. Whatever type of tire you use, there is a Firestone to suit your needs-----of a quality that assures you the economy of MOST MILES PER DOLLAR. Ask your dealer for Firestones. Have them put on every wheel of your car or truck.
