

MOTHER JONES URGES MINERS TO AID STEEL MEN

Argues Against Recall of the Strike Set For Next Monday

Cleveland, Ohio, Sept. 17.—The convention of the United Mine Workers of America has disposed of the Illinois strike problem, refusing seats to the contesting delegates by a vote of almost eight to one and thereby sustaining the action of international and state mine officials in depriving twenty-five Illinois local unions of their charters for indulging in unauthorized strikes.

The iron and steel workers, and "Mother" Jones, the aged mine worker representative, appealed to the convention to support the steel workers in the projected steel strike. "Mother" Jones argued openly against any postponement, telling the miners to pay no attention to contrary reports, because the strike would come off as arranged next Monday. Recall of the strike call, she declared, would wreck the confidence of the steel workers in their organization.

OH! FOR RELIEF FROM FLAMING SKIN DISEASES

Terrifying Itching Causes Continuous Torture

Do you sometimes feel like you will scream if you do not get relief from the tormenting and terrifying itching and irritating burning that makes you feel like your very skin is ablaze?

Possibly your disorder has not reached the torturing stage as yet, but there are thousands of victims of skin diseases that know too well the almost unendurable pain that comes from eruptions, irritations, pimples, boils, ulcers, eczema, psoriasis, carbuncles and the numerous other forms of torment that attack the delicate tissues of the skin.

The only proper method of treatment for any disease, is a remedy that will reach its source, that will remove its cause, and not simply palliate its symptoms. Many forms of skin ailment come from a colony of millions upon millions of tiny disease germs that infest the blood. Naturally, then, these germs must be eradicated from the blood before a cure can be expected.

applying lotions, ointments, salves, washes and other local applications to the surface of the skin. So when you use such treatment for your tormenting skin diseases the most you can expect is a temporary discontinuance of the pain, which promptly returns, and keeps you constantly applying the local remedies, making no progress whatever toward permanently ridding yourself of the disease.

Why longer continue such makeshift treatment? Go to your drugstore to-day and get a bottle of S. S. S., the reliable blood purifier, and begin a treatment that will prove satisfactory, as it has to thousands of others who were afflicted just as you have been. S. S. S. has been used for more than fifty years, so that you are not experimenting when you take it. It will counteract the germs that attack the skin, and its tonic properties will build up the general health.

Don't continue to suffer, but begin taking S. S. S. to-day, and write our head physician, who will give you full instructions about your own case. Address Medical Director, 404 Swift Laboratory, Atlanta, Ga.

BRITISH LIQUOR TRADE BRUSHES UP SALOONS

New Bill in Parliament Would Promote Sobriety in Kingdom

London, Sept. 17.—Better public houses, an improved tone for saloons, is the newly-announced policy of the British liquor trade. Rear Admiral Sir Reginald Hall, a member of Parliament, who was recently elected to the directorate of one of the leading brewing companies of the kingdom, said that representatives of all sections of the trade had drawn up a bill embodying such principles as promotion of sobriety, restriction of drunkenness, reduction of the number of licenses where they are excessive and enlargement of premises so as to provide greater opportunities for social amenities.

DENIES JAPS HAVE ACQUIRED OIL HOLDINGS

Mexican Department of Industry Says They Have Located Deposits

Mexico City, Sept. 17.—The Department of Industry and Commerce denies emphatically that Japanese interests have acquired petroleum holdings in Mexico, but says parties of Japanese geologists have visited the republic recently on a tour of exploration and have located oil deposits on the Pacific Coast. The departmental denial came as the result of stories emanating from the United States that Japanese capitalists were negotiating for the transfer of large petroleum holdings in the Tampico district. El Sempronio recently interviewed a Japanese, R. E. Douari, who was sent to be a member of the oriental exploration party. He asserted that Japan needs Mexican oil for commercial purposes and will attempt to acquire that product, but it has no intention of buying leases, the country is undeveloped, on the Atlantic Coast.

Aston, will present at the Orpheum next week—Tuesday, Wednesday and Thursday. In the character part of Robert Golden, the Shylock, Mr. Downing has a part that will show his ability entirely different from anything he has ever played—that of a man who loves money, apparently above everything else in the world, but who has a daughter, who he also loves. As to which he loves the most is shown in a unique dramatic way in this play. The story is strangely interesting, full of dramatic situations and climaxes.

SHARP FIGHT IN DEBATE ON PEACE TREATY

Republican Leader Wins Delay on Vote For Johnson Amendment

Washington, Sept. 17.—Pro-League forces in the Senate late yesterday won a signal victory, when, after sharp clash between Senators Lodge and Hitchcock, the anti withdrawal motion to take up regular legislative business lost a motion to adjourn. The Senate then began the actual reading of the Peace Treaty with Germany. Later when the Johnson amendment, providing for equal representation in the Senate of the United States and Great Britain was up for a vote, the Senate moved that it be temporarily until Senator Johnson and other Senators now absent return and can speak. After a day devoted to announcement of the League by Senator Sherman, of President Woodrow Wilson, and by Senator Lodge of Massachusetts, it appeared that still another day would be lost without any actual progress with the Treaty itself. When Senator Smoot, of Utah, then sought to bring up the Water Power bill for the remaining half hour of the session, Senator Hitchcock, leader of the pro-League forces, intervened.

Facing the fact that during the next two days the Senate will do no business because of the Pershing celebration, while on Friday, Senator speak, Senator Hitchcock scheduled to direct charge to opponents of holding up the Treaty and demanded to know whether filibustering tactics that have characterized the last few days would continue or whether the Treaty would be taken up as promised by the majority.
