

### ARTILLERY MAY GET WAR GUNS

Movement Is Under Way to Have Pieces Used in Europe Given to New Guardsmen

If it is possible to arrange it, the new National Guard of Pennsylvania artillery regiments will have the guns they used in the war overseas. Among the plans being made for the organization of the new Guard of the new Guard is one for an artillery complement equal to what the Keystone Division had in the war, although this will depend largely upon the scope of the bill passed by Congress. The belief here is that the three regiments will be authorized.

If this is done, it is the plan to trace the guns, which are numbered, and to have them placed in custody of the units which worked them in battle. The War Department officials have agreed to aid in this plan as much as possible.

Contractors Busy—State highway contractors have started to push operations as rapidly as possible in order to be in position to get advantage of the weather conditions and to "get the jump" on any shortage of stone which may result from the delays due to lack of the cars specified for hauling of such road-making material. It is calculated to work until snow falls and there is a brisk demand for labor. State Highway Commissioner Lewis S. Sadler is out on a tour of inspection of contracts under way.

Will Study Data — Data filed by Philadelphia tenants in the movement against land speculators and others alleged to have engaged in profiteering will be studied by deputy attorney generals and a report made to the Governor shortly. The Banking Department has also been asked by the Governor to look into charges connecting building and loan associations with the situation.

Governor to Speak — Governor Spruhl has accepted an invitation to speak at the dedication of the new Bureau of Mines in Pittsburgh.

Commission Adjourns—The Public Service Commission adjourned last night after the Bell hearing. It will meet here Monday.

Capitol Visitors—Visitors to the Capitol included ex-Senator Webster Grim, Bucks; Irua Keefe, of Wilkes-Barre; W. N. Carr, former Congressman from Uniontown; Representatives W. J. McCaig, of Pittsburgh; Dennis J. Driscoll, of St. Mary's; former Democratic State chairman, who was on Board of Pardons, and ex-Judge Ellis L. Orvis, of Bellefonte.

Donaldson Speaks — Insurance Commissioner Thomas B. Donaldson has been attending the Hot Springs Insurance Conference.

Brunner Returns—Architect Arnold W. Brunner left for New York after a series of conferences with State officials in regard to the Memorial bridge. He will return here early next week for the opening of the bids.

Congratulate Beideman—Numerous letters and telegrams of congratulation on the victory achieved on Tuesday are being received by Lieutenant Governor Edward E. Beideman.

To Meet Next Week — It is probable that the State Welfare Commission will be called to meet in this city next Tuesday for consideration of the Philadelphia rent situation, if it is found that the State has authority to cope with the conditions complained of in respect to houses being kept idle, and to consider changes in State activities as the result of the close of the war. The most important will be the concentration of employment agencies in the Department of Labor and Industry.

Hearing To-morrow — Public Service Commissioners will sit in Philadelphia to-morrow to hear complaints made by the Northwest Business Men's Association of that city against fares charged by the Rapid Transit Company and also applications for increases in steam heat rates.

Demure Up Soon — Arrange-

### RAIN HAMPERS HIGHWAY WORK

State Highway Department Issues Statement Showing Unusual Conditions

The State Highway Department today issued a statement showing that the Pennsylvania road building operations this year had encountered some of the rainiest weather known in summer for years. Between June 1 and September 5, ninety-seven days, there were thirty-five days of rain on an average in six districts of the State. The weather bureau offices are located, hampering operations.

The statement says: "The United States Department of Agriculture has weather bureaus in Reading, Scranton, Harrisburg, Philadelphia, Pittsburgh and Erie. Rainfall of sufficient quantity as to prevent road work by contractors fell on thirty-six days between June 1 and September 5, in the Reading district, 38 days in the Scranton district, 37 in the Harrisburg district, 35 in Philadelphia, 39 in Pittsburgh, and 34 in Erie. August was the wettest month, reports from these six districts show, there being a total of 77 days of rain in the six.

Rains of this summer were, however, below normal in the Erie district. From June 1 to September 5, the rainfall in the Erie district totaled 10.04 inches; the normal for that period approximated 10.25.

In the other five districts of Pennsylvania the rainfall was much greater than normal. For example, in the Philadelphia district, normal for the period was 12.24 inches, while the total precipitation was 19.07 inches. In the Pittsburgh district, precipitation totaled 16.9 inches; normal, 11.49. The normal in the Scranton district was 11.65 inches, while the total for the recently ended period was 12.68 inches. In the Harrisburg district, precipitation reads 16.04 inches and the normal was 11.67 inches. In the Reading district, normal was 12.37 and this year's record was 15.36 inches.

The rainfall for September has ranged about normal. Just at the time the contractors were setting dry weather, however, it became difficult to secure stone. For the last week the State Highway Department has been bending every effort to make it easier for contractors to 180 projects to receive stone shipments.

CONVENTION IN SESSION — Columbia, Pa., Sept. 18.—The annual Sunday school convention of the Fourth District of Lancaster county opened in the Columbia Presbyterian church this afternoon and will continue this evening. The Rev. J. H. Reye, of Lancaster, will deliver the address at the evening session. The United Brethren male quartet will sing.

Clean Up Poison Soaked Kidneys Advises Dr. Carey

Thousands Die Every Year Because They Allow Poisonous Deposits to Accumulate in Kidneys

Don't flush your kidneys with harsh makeshifts says Dr. Carey, they are too frail and delicately constructed to treat them rough. For 40 years I have been prescribing Marshroot for kidney and bladder sickness and now that I have retired from active practice I have made arrangements with leading druggists to dispense this wonderful prescription at a moderate price.

Beware of kidney disease thousands die of it every year who ought to be enjoying the blessings of life and health. If you have specks floating before the eyes, puffs under eyes, clammy feet or moist palms, headache or sideache, you ought to get a bottle of Dr. Carey's Marshroot right away. It has conquered thousands of cases of kidney and bladder diseases and is the medicine you can always depend upon.

IMPORTANT—Dr. Daniel G. Carey has been a practicing physician for many years and his great prescription, "Marshroot," has cured thousands of sufferers from kidney and bladder troubles. It is not a patent medicine and is only sold through drug stores in order to accommodate his patients. Geo. A. Gorgas can supply you.

Addition to Millersburg Industry Nears Completion

Millersburg, Pa., Sept. 18.—The new addition to the Keystone Reamer and Tool Company, is fast nearing completion. When finished will be one of the finest plants in Millersburg and give employment to a large additional number of operatives.

Use McNeil's Cold Tablets. — Adv.

### TRAGIC DEATH OF AUTHOR DURING HUN OCCUPATION OF LILLE, JUST REVEALED

Lille, Sept. 18.—The tragic death of Adolphe Degeyter, the composer of the "Internationale," who passed away here during the German occupation, has just become known to the city. Degeyter, a man of strong character, laborious workman, had written several songs which he and his brother-in-law used to sing. He made no pretension to being a musician, but took great pleasure in playing the bugle. It was on this instrument that he played the famous air which he wrote to the words of Eugene Pottier, and the first time he sang it was to some of his comrades in a cabaret here. Then his wife died. His brother went to Paris and passed himself off as the author of the famous air. The two misfortunes worked disastrously on Degeyter's mind. He began to drink heavily and conceived for all music a dislike so strong that he would leave a cafe if any one began to sing or play some musical instrument. Then the Germans came. Degeyter suffered acutely from having to work for them on the town water supply. When the typhus epidemic spread he was ordered to report at the military hospital, and one day he failed to present himself. The "Kommandantur" issued a warrant for his arrest. In the evening he hanged himself. He is buried in the cemetery near here, where a little wooden cross with the name "Adolphe Degeyter" marks the grave of the author of the "Internationale."

### WATT GARRET ON EXHIBITION

Shown as Part of the Centenary Celebration Held in His Honor

London, Sept. 18.—The garret in which the engineering genius, James Watt, pursued his mechanical studies was removed intact from its position on the top of Heathfield Hall at Handsworth, where Watt spent his last years, and re-erected in the central memorial buildings in Birmingham where the Watt centenary celebration is being held. When Watt died the garret was locked up and remained unopened for about fifty years and even now it is still in exactly the same condition as when Watt worked in it. The piece of iron Watt was last engaged in turning lies on the lathe. The ashes of his last fire where Watt used to do his own cooking because of his wife's objection to seeing her husband "looking like a blacksmith" are still in the grate; the last lump of coal is in the scuttle. The Dutch oven is in its place over the stove and the frying pan in which he cooked his meal is hanging on its accustomed nail.
