President Confident People Will Have No Private Purpose

to ask for closer attention, but the crowd did not quiet down. When he left his hotel for the auditorium he was cheered by a crowd which had blocked the street for more than an hour. votes in the League of Nations and thereby control the League's action? Answer—The consideration which led to assigning six votes to self-governing portions of the British empire was that they have in effect in all but foreign policies, become autonomous self-governing states, their policy in all but foreign affairs being independent of the control of the British government and in many respects dissimilar from it.

Can Order Troops Abroad? 2.—Is it true that under the League of Nations foreign countries can order the sending of American troops to foreign countries? Answer—It is not.

3.—What effect will the League of Nations have in either forwarding or hindering the final restoration of Shantung to China? What effect will the League of Nations have in preventing further spoliation of China and the abrogation of all such special privileges now enjoyed in China by foreign countries? Answer—The League of Nations will have a very powerful effect in forwarding the final restoration of Shantung to China, and no other instrumentality or action can be substituted which could bring that result about.

4.—Is there anything in the League of Nations Covenant or the Peace Treaty which directly or indirectly in any manner imposed on the United States any obligations, moral

or otherwise, of the slightest character to support England in any way in case of revolt in Ireland? Answer—No.

5.—What effect, if any, will the League of Nations Covenant have in either hindering or furthering the cause of Irish freedom? Answer—It was not possible for the Peace Conference to act with regard to the self-determination of any territories except those which had belonged to the defeated empires, but in the Covenant of the League of Nations it has set up for the first time, in Article 11, a forum before which all claims of self-determination are to be presented.

People Starving in Near East Beg For Relief

J. Calvitt Clarke, director of the Committee for Relief in the Near East with offices at Front and Walnut streets in this city, recommends that every man and woman in Harrisburg vote the picture to be shown at the Victoria Theater next week entitled "Auction of Souls."

There is in existence the American Committee for Relief in the Near East. This committee is saving the lives of thousands of Armenians, Greeks and other peoples in these stricken countries. This organization has as its chairman in Damascus, Syria, C. W. Burdett, of this city. John Heathcote is the secretary and William Jennings treasurer. The county has given about \$50,000 this year for the carrying on of this work, but much additional money is needed and a campaign will be held in February of next year when an opportunity will be given to adopt articles of faith for the orphanages of the Relief Committee in the Near East.
