

**Big Packing Plant Nears Completion**

Prince Albert, Sask., Sept. 18.—The co-operative stockyards and packing plant, which are expected to make Prince Albert one of the live stock centers of Western Canada, are approaching completion. The United Grain Growers, the largest co-operative farming organization in Canada, it is announced, will open permanent offices here for a live stock representative and several large live stock firms have stationed commissioners here. The stockyards have been financed by the Saskatchewan government

and the co-operating farming organizations. The construction of the contemplated line of the Canadian National Railways into the Carrot river and Lake Birch district north-east of the city, where the government plans to establish a soldier colony, will open a country which will become an important live stock feeder to the co-operative plant.

**Wm. Mackenzie King Friendly to U. S.**

Toronto, Ont., Sept. 18.—William Lyon Mackenzie King, newly-elected successor of Sir Wilfrid Laurier as the leader of the Liberal party in Canada, always has been regarded

as distinctly a friend and admirer of the United States. Part of his education was obtained there. He is thoroughly conversant with American institutions and traditions and for years has been a close student of economic and labor conditions south of the border. He is one of the most scholarly of Canadian public men.

He is of pure Scotch ancestry on both sides of his house and obtained his early education in the public and high schools of Kitchener and entered the University of Toronto where he specialized in political economy. He was given the degree of B. A. in 1895; that of LL. B. in 1896, and that of M. A. in 1897.

He learned newspaper work on the Toronto Globe. For a year he worked as a reporter. He has frequently said that this experience was an education in practical sociology as valuable to him as any training he had in college. Use McNeill's Pain Exterminator—Ad.
