#### A Never Failing Way to Banish Ugly Hairs

(Aids to Beauty) No woman is immune to superfluous growths, and because these are likely to appear at any time, it is advisable to always have some depilatory powder handy to use when the occasion arises. A paste is made with some of the powder and water, and spread upon the hairy surface; in about 2 minutes this is carefully removed and the skin washed. You will then find that your skin is entirely free from hair or fuzz. Be sure, however, to get real delatone.

#### To Relieve Catarrh, Catarrhal Deafness and Head Noises

Persons suffering from catarrhal deafness, or who are growing hard of hearing and have head noises will be glad to know that this distressing affliction can usually be successfully treated at home by an internal medicine that in many instances has effected complete relief after other treatments have failed. Sufferers who could scarcely hear have had their hearing restored to such an extent that the tick of a watch was plainly audible seven or eight inches away from either ear. Therefore, if you know of someone who is troubled with head noises or catarrhal deafness, cut out this formula and hand it to them and you may have been the means of saving some poor sufferer perhaps from total deafness. The prescription can be prepared at home and is made as follows: Secure from your druggist 1 oz. Farmint (Double Strength). Take this home and add to it a pint of hot water and a little granulated sugar; stir until dissolved. Take one tablespoonful four times a day. Farmint is used in this way not only to reduce by tonic action the inflammation of the lining of the Eustachian tube, and thus to equalize the air pressure on the drum, but to correct any excess of secretions in the middle ear, and the results it gives are nearly always quick and effective. Every person who has catarrh in any form, or distressing rumbling, hissing sounds in their ears, should give this recipe a trial.
