

### Gunboats Searching For Missing Steamer

Havana, Sept. 19.—Two Cuban gunboats are searching along the northern shore of the island and in the Bahamas for some trace of the Spanish steamer Valbanera, which is nine days overdue and for the safety of which grave fears are entertained. The steamer, with several hundred passengers on board, arrived off Morro Castle, on September 9, when a great tropical hurricane was raging, and, being unable to enter port put out to sea to wait for the storm to abate. Faint wireless calls supposed to come from the Valbanera have several times been picked up here and at Key West. While those who have hoped the ship was safe are beginning to be pessimistic over her fate, it is pointed out that on one former occasion she rode out a storm fully as violent as the one of last week, reaching port 14 days overdue and with her upper works virtually stripped away by mountainous waves. They say the ship was equipped with watertight compartments and was supposed to be unsinkable. It is suggested that if other means of finding the ship prove fruitless seaplanes may be sent out from Key West to search for her.

### The Best Coal For Cold Weather

A long, cold Winter with little snow is the prediction. The snow makes little difference — it is the intensity and length of the cold weather that must be guarded against.

Kelley's "Blue Ribbon" Coal—highest in heat units by actual test—is the Coal to look to for comfort. It has the smallest percentage of impurities of any fuel mined.

What you want this Winter of high living costs is more heat and less waste.

Try Kelley's "Blue Ribbon" Coal—but get it now while the supply is in the yards.

### STATE SCHOOL REORGANIZATION

Superintendent Finegan announces Formation of Four New Bureaus

Dr. Thomas E. Finegan, the new State superintendent of public instruction, to-day announced the first steps in the reorganization of the Pennsylvania department in charge of education. Appointment of Dr. William D. Lewis, of Philadelphia, to be second deputy was formally announced and four new bureaus established. Further moves in the comprehensive plans for the reorganization will be announced later together with various projects for the rejuvenation of his branch of the State government.

The reorganization plans announced were the result of a study of the department and a series of conferences with Governor William C. Sproul, who has given the new superintendent cordial support in the work.

Dr. Lewis, who will have charge of secondary education in Pennsylvania, is a graduate of Syracuse university and has been at the head of the William Penn high school in Philadelphia for several years. Dr. J. George Becht, for several years secretary of the State Board of Education, was appointed first deputy some time ago.

Dr. Finegan's new bureaus are as follows: Administration—Which will handle all financial and statistical affairs and be in charge of Major Fred Englehardt, a graduate of Penn Charter school, Philadelphia, and Yale university, who has done post graduate work at Columbia and Harvard. He recently returned from army service. Major Englehardt will be known as director and several members of the present staff whose duties relate to financial and statistical work will be placed in the bureau.

Attendance—Which will be in charge of Reed E. Tietrick, of Jefferson county, deputy State superintendent for several years, and will have charge of enforcing the compulsory attendance law. Dr. Finegan has received information that this law is not being closely enforced in some parts of the State and it will be taken up and vigorously carried out, he announces.

Health Instruction—Which will be under Dr. Clinton P. McCord, a native of Chester county, graduate of West Chester State Normal school and of the University of Pennsylvania and a teacher of six years experience in Pennsylvania schools and colleges in other States. This bureau, which has been established after consultation with Col. Edward Martin, State Commissioner of Health, will work in conjunction with the Department of Health and will organize instruction for all the school children regularly and systematically in health subjects, placing them on the same plane as other branches of instruction. There will also be supervisors of physical training. One of which will be directed by Miss Jeanne M. Gray, of Pittsburgh, a graduate of Pennsylvania College for Women at Pittsburgh and other institutions and who has resigned a position in the University of Wisconsin to take this place. Miss Gray will have special charge of physical training for girls. It is the plan to establish a similar bureau to supervise physical training and athletics for boys.

Training and Certification of Teachers—Which will be in charge of Dr. Albert Lindsay Rowland, superintendent of Radnor schools, Delaware county, a former principal of the school of pedagogy at Philadelphia and a graduate of the University of Pennsylvania. He will be director and have charge of a reorganization of work relating to the training, examination and certification of teachers.

Col. Martin has extended to Dr. Finegan co-operation of his department in preparation of courses of study and services of specialists in health instruction matters.

### TOTAL DEAD ON GULF COAST IS NEARING 500

Death List Grows Rapidly; Body Is Identified as Bishop Nussbaum

By Associated Press. Corpus Christi, Tex., Sept. 19.—Rapid growth of the death list resulting from the hurricane and tidal waves that swept Corpus Christi and nearby points Sunday caused the belief among the relief workers and local officials that the total dead would approximate five hundred persons. Estimates of the property loss runs as high as \$20,000,000.

Redouble Efforts. With a large amount of territory still to be explored, searchers to-day redoubled their efforts to recover bodies of persons who lost their lives in the gulf hurricane.

That dozens of persons who lost their lives probably never will be identified was the belief expressed as reports came in that burial parties were interring bodies as rapidly as found for sanitary reasons.

To-day 284 bodies had been reported buried and of that number only 82 identified. Fifty-seven bodies had been buried here.

Relief Measures Under Way. Relief measures for relieving the distress of the 3,000 or 4,000 persons made homeless by the storm were reported to be progressing satisfactorily.

A rescue party started to-day to Mustang island where 11 persons who were on board the wrecked launch Waldo are marooned. Among the dead in Sunday's gulf hurricane of here, identified, was Bishop Paul J. Nussbaum, of Corpus Christi.

San Antonio, Tex., Sept. 19.—Bishop Paul J. Nussbaum, of Corpus Christi, reported among the identified dead there, has been at Corpus Christi since 1913 and has been a member of the Paulist order. He served as missionary in Buenos Aires and other points in the Argentine Republic, was stationed at Rome for several years and for the five preceding 1913 conducted missions and retreats in eastern states. He was born in Philadelphia and it will be taken up and vigorously carried out, he announces.

Legion Weekly, the official organ of the American Legion, publishes in its latest issue an attack on the Federal board for vocational training. Congress and the war risk insurance bureau, asserting that up to September 4 only 33 men of the 230,000 Americans disabled during the world war had been completely trained and established in employment by the board.

"The history of this elaborately constituted organization," the article says, "which with millions at its disposal has been charged with the task of rehabilitating disabled soldiers and by training and re-education enabling them to resume self-supporting stations in society, is a black record. The men who gave most have received least from a grateful nation."

Referring to the war risk insurance bureau it says: "Why it requires from three weeks to six months for the bureau to act on a man's case after he leaves the hospital is a mystery that has never been explained."

### One Killed Three Hurt When Automobile Overtakes Near Carlisle

Frank Pennell, aged 58, of Duncannon, teller in the Duncannon First National Bank, was instantly killed yesterday afternoon about nine miles from Carlisle when the automobile in which he was riding with friends, overturned. Three other persons were injured so badly that they were taken to the Carlisle Hospital for treatment.

The other injured are: Mrs. Frank Pennell, of Duncannon, badly bruised.

C. F. Haas, of Duncannon, badly bruised about the head and knee.

Mrs. Frank Weightman, of Hoboken, N. J., broken right arm and severe bruises.

The accident occurred about 5 o'clock near the White Stone House on the Walnut Bottom road. A sharp turn of the heavy seven-passenger automobile wrenched one wheel off and it overturned over the edge of a culvert.

The automobile was owned by Frank Weightman, of Hoboken, N. J., who, together with Mrs. C. F. Haas, of Duncannon, were the only uninjured persons in the automobile. The party was returning by automobile from Pittsburgh to Duncannon at the time of the accident.

The body was taken in charge by undertaker Lutz, of Carlisle, last evening, and to-day was taken in charge by H. J. Deckard, of Marysville and Duncannon.

### Auto Crash at Crossing Snuffs Out Five Lives

Riverside, N. J., Sept. 19.—Five persons, two men and three women, were instantly killed and a child critically injured last evening when the driver of an automobile disregarded the warning of a grade-crossing guard at Taylor's Lane, on the Pennsylvania Railroad, below Riverside, and ran his car directly in front of an east-bound passenger train. The dead are:

Mrs. Laura Davis, 49 years old, of East Riverton.

Miss Laura Webb, 21 years old, of East Riverton, daughter of Mrs. Davis.

Mrs. Gertie Tuber, No. 37 Federal street, Camden, a friend of the Davises.
