Over-Worked Men

The Strenuous Life We Are Living Uses Up Our Vital Forces Faster Than Nature Can Replace Them.

To overdo anything is harmful and a continuation of it will wear out the strongest man. Overwork, worry, brain-tire, high living, dissipation and other such habits waste away the most vital elements of the blood, brain and nerves- then disease sets in. At first there will be a general indisposition, poor appetite, indigestion, severe headache, wakefulness and weakness in the back, the temper irritable, the spirits depressed, the memory poor and the mind weakened, ending in premature decline. Dr. Chase's Blood and Nerve Tablets correct this condition by building up your blood and nerve forces. A trial will convince you.
