

BULGAR TREATY LIKE AUSTRIAN

Summary Shows Pact to Follow the Same General Plan

Washington, Sept. 19.—Summary of the Bulgarian Treaty of Peace, cabled to the State Department by the American Mission at Paris, shows the pact to follow the same general plan as the Austrian Treaty.

"Many clauses are identical with the Austrian Treaty," says the summary, "except for the substitution of names, such as the League of Nations, labor, aerial navigation, penalties, prisoners of war and graves."

"Regarding the change in the Bulgarian frontiers, the important changes are to the south where Bulgaria cedes western Thrace to the principal Allied and associated powers and agrees to accept whatever disposition of this territory the powers ultimately decide, but it is stipulated that in any event Bulgaria's western frontiers shall be modified slightly in four places to Serbia's advantage."

New States Protected

"The Bulgarians are required to recognize the independence of the Serb, Croat and Slovene state and provisions are made to change the nationality of the inhabitants of the territory formerly Bulgarian and transferred to other states. Provisions are made for protection of the minorities of race, language, nationality and religion. Within three months the Bulgarians are required to demobilize the army and substitute volunteer enlistments. The Bulgarian army is reduced to 20,000 men, exclusively for the maintenance of order and frontier control. The manufacture of war material is confined to one establishment, the other establishments to be closed or converted."

verted. All war ships, submarines or air forces must be surrendered. Bulgaria is required to pay as reparations two and a quarter billions of francs in gold within 37 years. Provisions are made for the creation of an international commission, on which Bulgaria is represented, but to have no votes, and the sums remitted for reparation coming through this commission to the reparation commission are to be established by the German Peace Treaty.

"Bulgaria agrees to return to Greece, Rumania, and the Serb, Croat and Slovene state, the records, archives and articles of historical and artistic value which were taken from these countries during the war, and livestock shall be returned within six months. An special compensation for the destruction of the Serbian coal mines, Bulgaria shall for five years deliver 50,000 tons of coal annually to the Serb, Croat and Slovene state.

"The financial clauses are similar to those of the Austrian Treaty and provide priority over the charges against assets of Bulgaria for reparation shall be given to the cost of all armies of occupation of the Allies, and to services of the external pre-war Ottoman public debt. Bulgaria renounces the benefits of the Bucharest and Brest Litovsk Treaties and agrees to surrender the moneys and securities received according to those treaties."
