Lift off Corns!

Doesn't hurt a bit and Freezone

With your finger! You can lift off by hard corn, soft corn, or corn between the toes, and the hard skin lluses from bottom of feet.

A tiny bottle of "Freezone" costs little at any drug store; apply a few drops upon the corn or callus. Instantly it stops hurting, then shortly you lift that bothersome corn or callus right off, root and all, without one bit of pain or soreness. Truly! No humbug!

Mr. Porter illustrated his talk with lantern slides, showing Pittsburgh "before and after." He said that at first it was almost impossible to interest operators of boilers to consider smoke prevention. They though it meant the installation of costly apparatus and greatly increased expenses to themselves. Now, he said, they understand that it is largely a matter of proper firing and that every particle of soot and every cubic inch of gaseous matter consumed under the boilers instead of being released into the air through the stacks means just that much more steam generated for the amount of coal consumed. He showed a picture of one plant where the savings under the boilers had amounted to \$60,000 a year.

Mr. Potter said the railroad officials and locomotive operators of Pittsburgh are co-operating wonderfully well for the prevention of smoke, and that Pijesburgh railroad vyards are now the cleanest in the world. It is possible, he said, not only to clean the fires of railroad engines without emitting vast quantities of black smoke, but fires under their boilers actually can be kindled without an objectionable degree of smoke.

Instead of combating the smoke regulation bureau the manufacturers of Pittsburgh are seeking its advice and are co-operating with it, he said. "Co-operation and publicity combined with a well framed smoke

and are co-operating with it, he said.

"Co-operation and publicity combined with a well framed smoke
prevention ordinance will do the
trick in Harrisburg, just as it is
doing it in Pittsburgh," he said.

Woman Dies of Hurts Received in Collision

York, Pa., Sept. 19.—Mrs. Anna Weisensale, aged 25 years, died on Wednesday evening in the York Hospital of injuries received in a collision of an automobile and a motorcycle on the Lincoln Highway on Labor Day. This is the second fatality resulting from the accident. Mrs. Weisensale's sister, Mrs. Myrtle Hollis-Knauss having died in the York institution a few hours after the collision. Mrs. Weisensale's injuries consisted of a compound fracture of the left leg and internal injuries. Amputation of the leg was advised at the time, but as the patient objected, it was deferred until Wednesday afternoon. The woman never rallied, dying in a few hours.

In an address interrupted many times by cheers he said that any man who discussed the Treaty on the basis of small and technical objections would in the end be "overwhelmed" by public opinion.

Mr. Wilson spoke before a crowd which jammed the auditorium here with its seating capacity of 13,000. Many others stood in the aises and in the rear of the galleries.

First to Serve People
This was the first Treaty, said Mr. Wilson, whose purpose was not to serve governments but "to serve peoples." All the peoples of the world, he declared, at last had seen a vision of liberty and had drawn up a Treaty for the peoples" and the fortunes of children everywhere." It was for the benefit of those of future generations, he asserted, that the document had been formulated. The "characteristic" of the Treaty, asserted Mr. Wilson, was that "it gives liberty to peoples who never could have won it for themselves." Had the world not already been rent by the great war, he said, the world would have been amazed that such a thing was possible." He declared it meant the end of the

By Associated Press. Rome, Sept. 19.—The time limit fixed by General Badoglio, deputy chief of staff, for the Italian troops that left their posts in the armistice zone around Fiume and entered the city with Captain Gabriele D'Annunzio to return to their commands expired last night. Latest advices from the scene of D'Annunzio's coup showed his forces were still in control of the city. The food situation there is said to be serious. There have been no advices as to the blockade of the place by Italian naval and military forces, but there are reports that Jugo-Slav troops are concentrating on the frontier between Flume and the Hinterland. There are indications that people not essential to the defense of the place may be compelled to leave so that the armed forces may be able to hold out longer. According to the Messagero, an agreement has been reached between Premiers Lloyd George, of Great Britain and Clemenceau, of France, and Foreign Minister Tittoni which will ensure the Italian nationality of the town, but President Wilson's assent to the plan is yet to be gained. The interallied forces which left Fiume after the arrival of Captain D'Annunizo's troops are reported to be at Abbazia, about two miles northwest of the city where they are awaiting instructions.
