

WONDERFUL OPPORTUNITY!

FOR INVESTMENT

in a Live, Growing Corporation With Splendid Prospect For Making Money

THE LIBERTY AERO SERVICE CORP.

Has purchased the interest of the Auto & Aeroplane Mechanical School, of Steelton, including Aviation Field, Aeroplanes, mechanical equipment, etc., and will offer for sale

Stock \$10 a Share

In purchasing the interests of the Automobile and Aeroplane Mechanical School, of Steelton, the Liberty Aero Service Corporation has secured a company and business that has been established here for more than four years—a growing, thriving institution that has builded a reputation second to none. This new corporation is a New York concern that has been in operation for some time and is backed locally by men of influence—bankers, lawyers, real estate men, etc. In taking over this big enterprise—the teaching and instructing in aeronautic and automobile construction—they have secured the services of the best-known aviators and instructors in the business to-day. Walter Shaffer, of Dauphin, needs no introduction to Harrisburgers. He is an instructor at the new school. Eugene Bowers, the president of the corporation, and John Keller, all ex-Army officers, comprise the trio of aviators who will instruct in aviation. W. M. Felten, one of the best-known and most expert automobile mechanics in this part of the country, will have charge of automobile instruction.

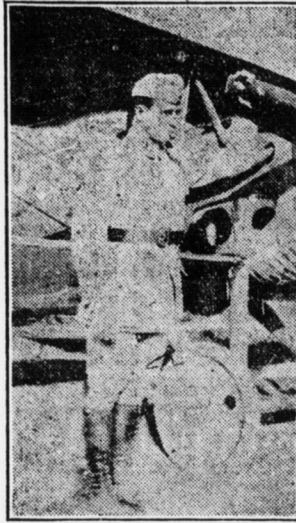

The teaching and instruction of both aviators and automobile mechanics is a coming business. The demand for trained experts was never greater and is increasing daily. The prospects for increased business in this line are growing day by day. In addition to this big enterprise, the instructing, the landing field that has been secured at Thirteenth and Sycamore streets will also be used for automobile and motorcycle racing. A one-mile track will be laid around the field and will be among the best in the country. A baseball diamond is included. Big grandstands are under course of construction. Circuses and fairs will be held on this big field, which contains twenty-five acres. In plain words, the many advantages offered through this field have an unlimited money-making opportunity. This company expects to open up an airline to the National Capital next spring for the carrying of passengers, etc. This, too, will mean big business.

To advance this big undertaking, the Liberty Aero Service Corporation needs working capital and is, therefore, offering to Harrisburgers the opportunity of buying original stock at \$10 per share, the par value. Stock will be sold in any quantity from one share up. Offices and headquarters have been established at the landing field at Thirteenth and Sycamore streets. For more complete information, prospectus, etc., mail the coupon attached below to-day. A representative will call and gladly go over the entire situation with you. Visit the field, see for yourself just what this big opportunity means. Take Steelton or Middletown cars going down Cameron street. Get off at Sycamore street and walk east. The big field is just at the top of the hill.

The Three Flying Instructors at the School

Eugene Bowers

Walter Shaffer

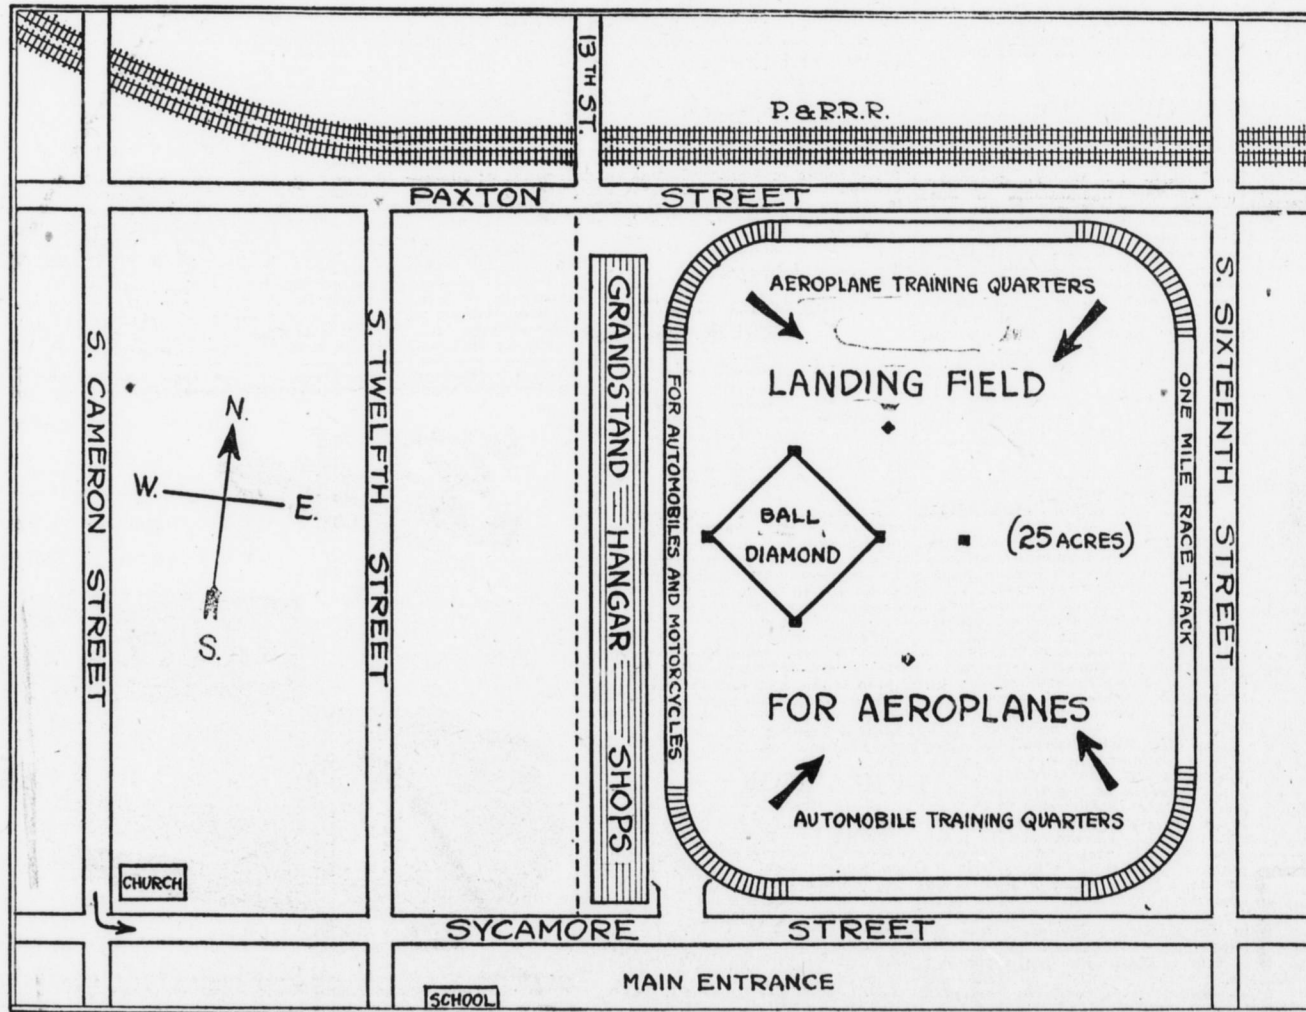

John Keller

The purpose of this corporation is to improve the aviation field at 13th and Sycamore Sts., adding an Automobile and Motorcycle Race-Track, Baseball Diamond, Large Grand Stand, etc. Conduct meets besides teaching aviation mechanical construction

The Automobile and Aeroplane Mechanical School has graduated many men who are now expert mechanics in this territory and a number of them are in the automobile business for themselves. This school has always had expert instructors in every department. The old policy will not be changed under the new management. The type of instructors secured by the Liberty Aero Service Corporation is the highest to be found. Their one aim will be to make the men they are teaching among the best in the country. Every one of them has had unlimited experience. The three aviators have seen considerable service on the front in France. Their experience carried them through every phase of aviation. They are, therefore, capable of giving the most expert service. W. M. Felten, the instructor in automobile mechanical construction, is well known here. He has been the manager of the school since it was organized. Appreciating the great demand for trained mechanics, he has founded a school here that has done big things and will do bigger things in the future. The one main object of the new corporation is to advance the school. The aviation field at Thirteenth and Sycamore streets is now ready for operation. New students are entering the school every day.

The school is now operating. Men are being trained right now and are becoming expert aviators and mechanics. There are about 150 men now being trained. If you are not making over five dollars a day in your present position, learn the automobile business, or take up aviation, Place yourself in a position to make big money. The opportunity in this field was never better. The demand far exceeds the supply. Learn this business after your working hours. We maintain both day and night classes. By entering now you can secure our unlimited course for \$100. The price is sure to go higher in a short time. Get complete information at once. Our aviators will make exhibition flights, carrying passengers over Harrisburg. The cost of a trip over the city will be either ten or fifteen dollars. This has not yet been definitely decided. However, if you are interested in any way, come to the headquarters and look around.
